The code used to create this software is copyright 1990 (©1990) by Bill Tchakirides.

NOTICE TO OMNIBUS SHAREWARE DISTRIBUTORS (SUCH AS EDUCORP, MACINTOSH BIBLE, ETC.) AND USERS' GROUPS: BILL'S DINGBATS 2.0 MAY NOT BE DISTRIBUTED BY YOU WITHOUT THE WRITTEN PERMISSION OF U-DESIGN, INCORPORATED. THE SOFTWARE IS NOT FREE OR IN THE PUBLIC DOMAIN, BUT IS DISTRIBUTED IN ONE OF THREE WAYS: DIRECTLY FROM U-DESIGN, ON GENie, OR ON CompuServe (Z MAC ON LINE). SHAREWARE FEE IS \$10.00. THERE IS A DISTRIBUTOR'S FEE OF \$500.00 TO LICENSE ANY ALTERNATIVE DISTRIBUTOR.

TYPE 1 PostScript® typeface set.

License:

This software is the property of U-Design, Incorporated. You, by registering it with a \$10.00 fee paid to U-Design, buy a license to use it on any printer you so desire. The following rules apply:

Since this is shareware, if you don't register it, you must destroy all copies of the software within 5 days of trying it.

Only one owner is allowed. You may transfer the software to someone else, but in doing so you must transfer all copies, original and backup, of the software and this license document.

You may use the software in any program which will support PostScript typefaces.

You may not do the following:

- Give duplicate copies of the software away
- Physically modify the software (other than ordinary design-related modifications, such as used in TypeAlign, Illustrator, Freehand, etc.)
- Convert it for use on any other hardware platform

If you have received this software with a paid order for any UTF Commercial-Grade font (Bill's Box Specials, Bill's Universal Symbols, etc.), U-Design has paid the \$10.00 fee for you. If you are not familiar with U-Design's product line, you will receive lots of information when you register Bill's Dingbats 2.0.

We hope you enjoy using the software and appreciate your comments and suggestions for upgrades, improvements, etc.

Installation:

REQUIRES FONT/DA MOVER 3.8 OR LATER! USING AN EARLIER VERSION WILL CAUSE THE SCREEN FONT TO BE DAMAGED, DESTROYED OR TO VANISH WITHOUT EXPLANATION!

The Screenfont Icon (suitcase) contains information to be loaded with Apple's Font/DA mover into the system. Double click on the suitcase to open the font, then transfer the screen font to your system. (see the Macintosh Utilities manual for operating the font/DA mover.

Drag the printer driver (the icon shaped like a laser printer) into your system folder.

You are now ready to use Bill's Dingbats.

Since these are intended for use on PostScript output devices, the screen fonts will not be of the same quality as the printed output. THESE ARE NOT MEANT FOR IMAGEWRITER USE WITHOUT ADOBE TYPE MANAGER.
