

## Track Font Demo 1.0

THIS IS A HIGH RESOLUTION FONT AND MAY NOT LOOK IT'S BEST ON SCREEN, PLEASE PRINT OUT A COPY OF "TRAIN TRACKS DEMO LEGEND" TO SEE THE FONT AS IT IS MEANT TO BE.

I was planing on finishing up the package for Railroad Heralds this evening when I got side tracked (sorry). I spent a couple of hours ripping up track today. We were rescuing some switches from a yard that is being scrapped (they were donated by Santa Fe). It is so sad to see track ripped up, but at least the switches will spend many more years of service in a museum.

At any rate, I was looking over the spikeless rail and thought to myself, "why not a track font?" Several hours later, I had enough track to make almost any train yard. However, I have spent most of the past month working on shareware fonts, and looking at the low percentage of shareware fees collected, I have decided to make this a prepaid-ware font. The complete font is available to people who have paid the shareware fee for another one of my products (though you will have to send a disk in, I am not that sophisticated yet). Alternately, you may send a formatted disk and \$10 prepaid to the address below.

The demo is free and you may keep it as long as you wish. You are free to distribute it as you see fit, as long as you include all of the accompanying files in their original forms. Namely, "Train Tracks Demo Story", "Train Tracks Demo Legend", "TrainTraDem", and "TrainTracksDemo.bmap". All of the included files are (C) 1994 by Benn Coifman.

After you load up the font, restart your word processor and print out a copy of the "Train Tracks Demo Legend" to see this font in action. You should also find a bitmap image of the complete font at the end of this file.

This font is available for the MAC or IBM (windows)
