Welcome Hacker

Hi, welcome to my resource fork. Feel free to snoop around.
Just don't change anything and distribute it without asking me!

If you are looking for passwords to crack my program, you
will not them here. I ask that if you can crack the demo time
limit, don't do it. This program has taken countless hours of
work   and debugging. Oh, so many hours with MacsBug. If you
think this was a simple program to produce and debug, you
are wrong. Besides, what's $10 anyway.
Please don't rip me off!

Joe Kloss
