

Company Profile

Personal Media International, Inc.

A new company at the frontier of multimedia technology.

5716 Mosholu Avenue

Riverdale, New York 10471

Tel: 718-884-7095/Fax: 718-884-1563

Personal Media International, Inc. creates, develops and produces innovative multimedia entertainment/educational products. The company has mastered the art of combining cutting-edge 3D graphics, 3D character animations, digital video and audio with game play strategies and cinematic techniques of storyline and character development to create visually compelling and thought provoking products. Personal Media's first multimedia product for Windows^(TM) systems defines a new category of computer games that lovers of classic games like Monopoly and Clue will find both challenging and fun. Personal Media is committed to elevating the genre of personal computer 3D game graphics and animations to a new level and developing products that consumers will identify as enriching and providing high quality content.

Some of Personal Media's award-winning 3D animations are included on this Multimedia Developer Kit sampler disk.
