Multimedia Exotic Pets DEMO
Horses, Birds, Aquatics and Pocket Pets
Copyright (c) 1995 Inroads Interactive

Welcome to the DEMO version of "Multimedia Exotic Pets." This README file provides you with the basics needed to get started on PC (Windows) computers.

1. ABOUT THE DEMO...

This demo is designed to give you a sampling of "Multimedia Exotic Pets." The demo is not fully functional -- some of the features have been disabled, and only 14 pets are available.

In addition to what's included in the demo, the full version contains over 120 pets, with hundreds of photographs, video clips, audio clips and informative articles.

The full version of Multimedia Exotic Pets is available for $29.95 -- 25% off the suggested retail price. To order your copy, call Inroads Interactive at +1.303.444.0632.

2. SYSTEM REQUIREMENTS

Your PC should have the following **minimum** system configuration:

        386 CPU (486 recommended)
        256 color (8-bit) display (640x480 pixels)
        4 MB RAM (8 MB strongly recommended)
        CD-ROM drive (double-speed recommended)
        Windows 3.1 or higher
        QuickTime for Windows 2.0 or higher (included on the CD-ROM)
        Sound card, speakers and mouse

See the VIDSOUND.WRI file (included on the CD-ROM) for a list of supported video and sound cards/drivers.

3. INSTALLATION

Follow these steps to install the Multimedia Exotic Pets DEMO. The installation program will create an "Inroads Interactive" program group in Program Manager. A "Multimedia Exotic Pets DEMO" icon will be placed in this group to allow you to start the program more easily. Follow these steps to run the installer:

        1. Open the Windows Program Manager.
        2. Select "Run..." from the "File" menu.
        3. In the Run dialog box, enter "D:\INSTALL" (D is the letter of your CD-ROM drive).
        4. Follow the on-screen instructions.

Note that the installation program will also allow you to install QuickTime. If you do not already have QuickTime installed, you must install it.

4. GETTING STARTED

To start the application, open the Windows Program Manager and double-click on the "Multimedia

Exotic Pets DEMO" icon in the "Inroads Interactive" program group.

The "shrub" at the bottom of the screen is used to switch between sections of the disc. Clicking on the animals hiding in the shrub takes you to one of the following sections:

Pets:	explore over 120 types of pets.
Groups:	pets organized by groups.
Pick-A-Pet:	find the pet that's right for you.
Fun:	games, slide show, wacky movies, and other surprises.
Topics:	read articles and watch videos aboutpet-related topics.
Help:	get online help about the program (disabled in the demo).
Quit:	quit the application.

Explore the disc by single-clicking (double-clicking is not necessary) on objects, text, and anything else you'd like to try. You can't hurt anything, so click on everything and anything. Yellow text is hot - if you click on yellow text, it will show you related information.
