Installation Instructions

Congratulations! You've just downloaded the neatest little set of animated cursors around. Just follow the installation procedures, and you'll be on your way to testing out Ted E. Bear.

(Reminder: If you don't have Windows® 95 or Windows NT™, then you can't use Ted E. Bear. Sorry!)

The downloaded self-extracting file, "Teddy10.exe" contains the following files:

- Setup12.wri: This text file. Contains the installation procedures for the Ted E. Bear Animated Cursor Set
- Demo12.zip: A compressed file containing the 3 demonstration cursors
- Order.wri: An Order Form for purchasing the full set of the Ted E. Bear Animated Cursor Set
- Catalog.wri: A catalog file listing the cursor sets available from K 'n S Associates. Along with the cursor set names, the file includes catalog numbers, unit prices, and color pictures to represent the cursors.
- Full12.zip: A compressed file containing the full set of 14 Ted E. Bear cursors (requires a password to decompress)

The following is a list of the demo files contained in the "Demo12.zip" file and the Windows® 95 and Windows NT™ cursor/pointer types for which they would best be used (these are only suggestions):
