4. MPEG ON MACINTOSH

Apple is feverishly working on a fully enabled MPEG-1 viewer. In the meantime, Sparkle, a freeware program written by New Zealander Maynard Handley, is the best Mac MPEG viewer. It uses the standard Mac Quicktime movie controller. Longer term, Apple is currently writing its MPEG-1 viewer to the standard we've set up for file extensions until the hardware encoders allow inclusion of the information in the file headers.

The latest version of Sparkle can be found at http://www.duplexx.com

There is a .text file that should be READ in order to best install Sparkle and to enhance playback quality. The files needed are MAC_MPEG.SEA (includes Sparkle 2.4.5 and Sound Manager 3.1) and MAC_MPEG.TXT. MPEG files can play on Sparkle 2.4.5. If there is a "v.M15" (video only M15) and users put it in the same directory as the corresponding "v.WAV" file, Sparkle will play the 2 files together allowing synched audio. Download NETTOOBV.M15 (1.04MB) and NETTOOBV.WAV (380K) for Mac solution testing purposes.

5. COMMAND LINE OPTIONS

There are several command line options for the NET TOOB player.(DXPLAYER.EXE) The command line options are:

- /FULL Full Screen
- /MUTE   Sound Off
- /SOUND   Sound On
- /LOOP   Play In A Loop
- /ONCE   Play Once Only
- /EIGHTH   Smallest Video Size(1x)

- /QUARTER   Medium Video Size(2x)

These should be placed after the media clip file name. For example:

        DXPLAYER C:\TEST_VID\VIDEO.M15 /FULL /MUTE /ONCE

will play the VIDEO.M15 clip in full screen mode, with no sound, one time. These commands override the default and user settings. The above, for example, will work even if the default size is small(1x) or medium(2x) and looping is set to ON. This would be useful if, for example, you wanted video files(MPEG, AVI, MOV, etc...) to play in a loop and audio files(WAV, MPA, MP2) to play just once. You would just change the setting in your Windows or Netscape Registry(or INI file in Win 3.1) For a short cut, you can just use the first letter of each word(IE: /F /M /S /L /O /E and /Q). Any questions should be directed to support@duplexx.com.
