Version:        4.5

Document:       Readthis.wri

# 1. Information about printing or publishing of "Tips & Tricks"

All printing or publishing for commercial propose **MUST** be authorized by Hanar Software. If you        wish to for example have this program/files on your next cover disk or print it in your next release    of your magazine, you **MUST** contact me first.

(I will most likely agree to what you have in mind. I will just ask you for a copy of the cover-disk,        or a copy of your magazine).

# 2. What's new!

Tips & Tricks has been a very popular utility. I receives about 10 email every day whit feedback         and Tips, therefor i can now proudly present Tips & Tricks version 4.5 now whit more then **150**     Tips & Tricks for Windows 95.

For all you that has send me emails... Keep on doing so.. I love emails. Its you guys that has    encourage me to keep on updating Tips & Tricks.

Some news in this release:
* Information about the Subst.exe program.
* Numlock fix
* Change the icon on Harddrive
* Viewing Win95 animated cursors
* LOGO.SYS scrolling bar
* Increase modem speed
* Increase performance in DOS
* Close the Start Button
* Useful programs on the Win95 CD-ROM
* Automatically clear the document file

# 3. Installation

How to install Tips & Tricks on your computer..
1) Extract ttricks.zip to any directory.
2) Open explorer and press the right mouse button on the files T&Tricks.inf.

Tips & Tricks will then install itself on your harddrive.
You can delete the files from your directory where you unzipped "Tips & Tricks",
(the files are installed into another directory, check section below for more information).

Tips & Tricks uses the Win95 Install/Uninstall options.
This means that when you uninstall Tips & Tricks ALL files and changes in the registry will be        removed.

*Tips & Tricks*

| File Name | Location | Purpose |
|---|---|---|
| T&Tricks.hlp | \Windows\inf | Main File |
| File_Id.Diz | *NOWERE* | For BBs to import |

ReadThis.wri          \Windows\inf          This file :)

## 4. Uninstallation

Just highlight Tips & Tricks in the Add/Remove Section (Control Panel) and press remove.
All files will be gone...

That it...  I hope you enjoy this utility.
