for Windows?

or for Macintosh?

Type information in the above unlocked cells. Print form.

Send form and \$14 to

Gil Frieze; 1132 El Camino Drive; Costa Mesa, CA 92626

Do you have both E Bonds and EE Bonds?

This spreadsheet (EBOND.XLS) and "Series EE Savings Bond VALUES" (EEBOND.XLS) may be registered simultaneously for \$25 total.

Thank you for trying Savings Note & Series E Savings Bond VALUES!

Savings Notes were offered for sale from 5/67 through 10/70. E Bonds were offered for sale from 5/41 through 6/80. If your bonds were bought later, you need the spreadsheet, "Series EE Savings Bond Values."

This template is easy to use. Just clear or type over the example data under the "Bond Purchase Date" and the "Total Face Value" headings in the above chart. [CAUTION: Do NOT use Clear - All; the cells will lock.]

Enter your personal bond data under those headings. This process is faster if the automatic calculation is changed temporarily to manual.

[CAUTION: Do not paste dates from an another Excel for Windows spreadsheet. Windows uses the 1900 date system as the default. This bond spreadsheet uses the 1904 date system.] Place data for your Savings Notes and Series E Savings Bonds in the applicable sections of the table. Savings Notes and Series E Savings Bonds are calculated differently.

CALCULATED ITEMS:

Original Cost: 75% of the Face Value for Series E Savings Bonds and 81% of the Face Value for Savings Notes.

Current Value: Calculated to within one cent per \$25 Face Value. (This potential round-off error is less than 0.02% for the lowest value E Bond.)

Bonds change value semi-annually.

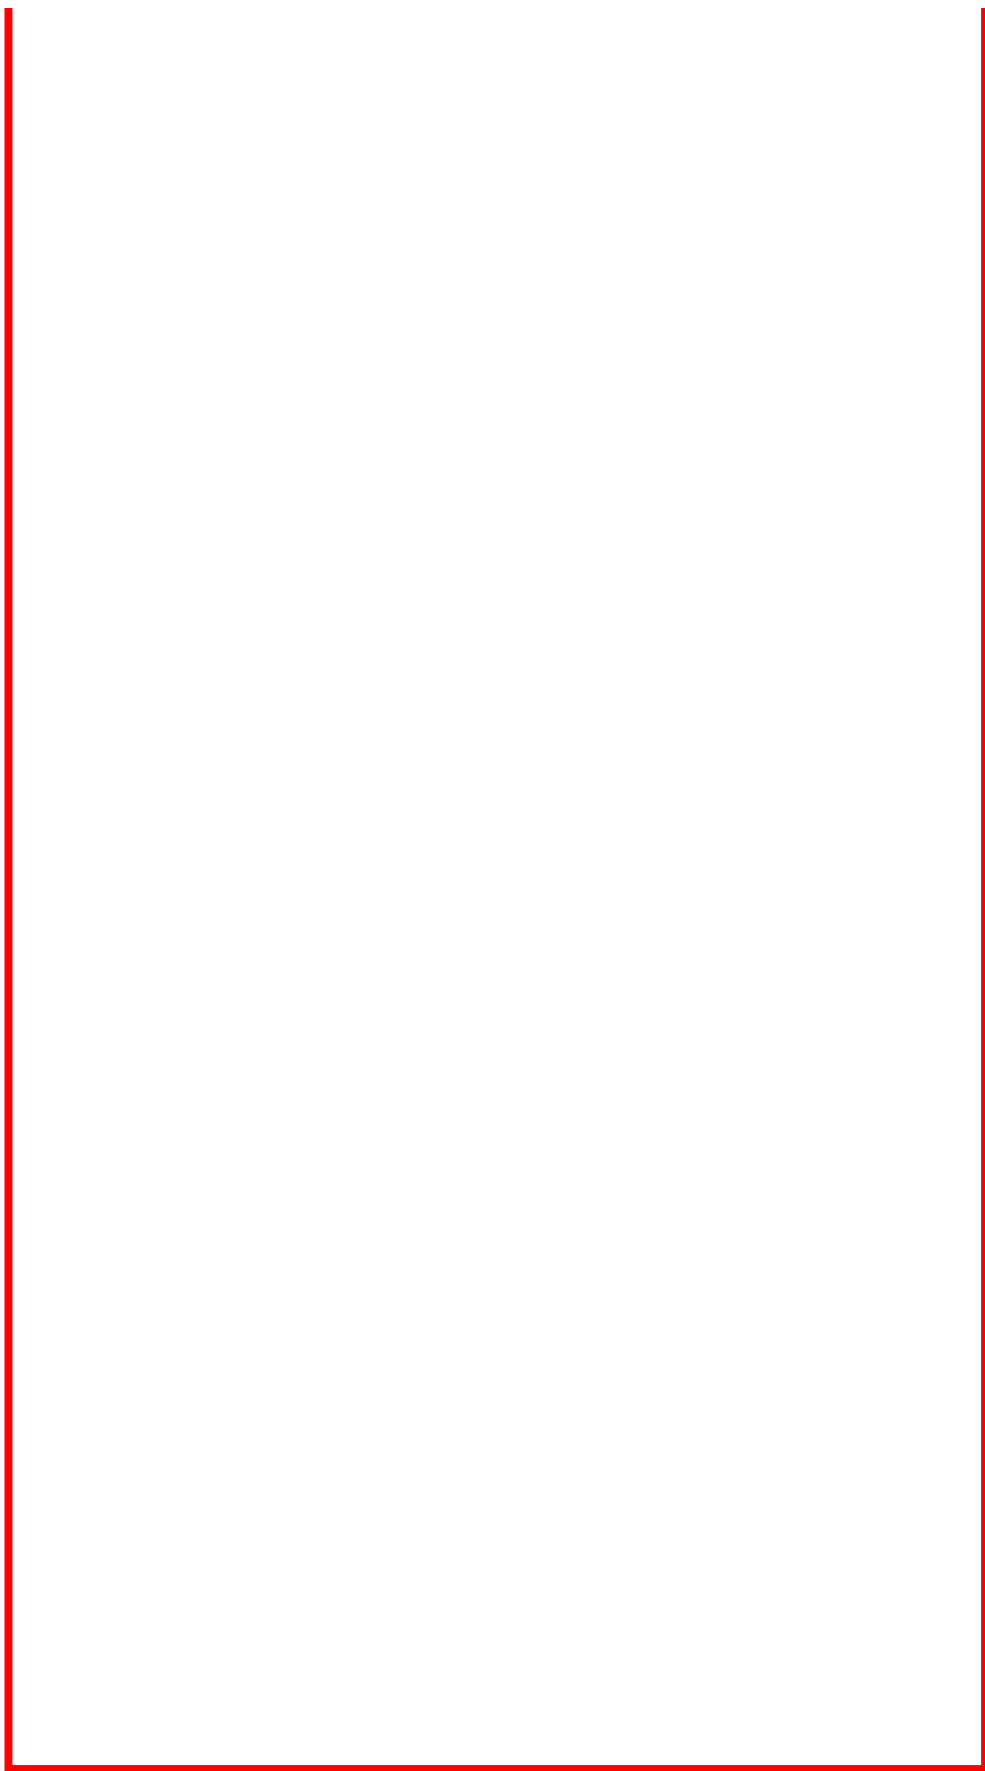

Current Guarantee Rate: The bond will pay at least this rate compounded semi-annually during its current 10-year maturity period. It will pay more if the average market-based rate is higher than the average Guarantee Rate.

Yield-To-Date: The compounded annual return from the date of purchase to today's date. This is the ONLY column that changes from day to day in the same month.

Pays Interest Until: Shows when the bond no longer pays interest. "NO Int" means that the bond has already stopped paying interest.

Expected Return Next 12 Months: The percentage increase in value one year from today. A low return can last for a month or for years. After registering, you wi
