Overview

Note: The accompanying version of Virtuax is NOT A REGISTERED VERSION. You MUST read and abide by the accompanying license agreement.

This program will install all of the necessary files and drivers for the Virtuax Demo application to your Windows 3.1 (tm) directory. It will also make any required changes to your system settings.

Clicking the **Install** button will begin the installation process. You will be prompted before each step of the installation process, and you may cancel the installation at various points. Please keep in mind that the application may not function properly if the installation process is interrupted.

The **System Statistics** panel graphically illustrates your system's statistics. It's purpose is informational only. The **Free Disk Space** item informs you of the free disk space on the installation destination drive. The green bar beneath the number represents the percent of free space on the destination drive. The **Available Memory** item informs you of the total available memory on your system. The green bar beneath the number represents the percent of contiguous memory that is available from the pool of all currently unused memory. The **System Resources** item represents the percent of available system resources under the Windows 3.1 (tm) operating environment.
