The file VBRUN300.DLL needs to be in your Windows/System directory for this program to work. To minimize the download time for this program, this file is not included. You can however get this file from numerous locations, including Microsoft's web site at <http://www.microsoft.com>. If you can't find it you may e-mail me at [rehnstro@third-wave.com](mailto:rehnstro@third-wave.com) and I will send it to you.

This is an unregistered version of this program. If you send me 20 bucks, I'll send you an updated version without any annoying messages asking for you to register. See the next page for a registration form. Please fill in the information below and send it to me.
