(i) Paris v.2.2

Table of Content

(i) Paris DESCRIPTION

Software Package

(i) Paris.zip file includes:

- (i) Paris.prc: program to install on your Palm
- (i) Paris.pdf: this file
- ReadMe.html: introduction.

What's new?

New features added in Version 2.2:

- **Interactive Selection Menu** for all locations: metro stations, monuments, museums and leisure parks.
- **Graphical Metro line** display for direct station picking
  Everything is on the map: Line display is compatible with layer and path displays
  Just click on visible stations on active line to select them!

- Dedicated form for Paris **aiports**: CdG and Orly
- Graphical and interactive Help form
- More detailed documentation.

Revisions History

Version 2.1 improvements:

- **Direct selection of places of interest**: just **pick** the Monuments, Museums and/or
  Leisure parks symbols on the **map** and confirm your choice with a special popup window.
- **Direct back path selection**. To **swap From** and **To** locations,
  you do not need to reselect them anymore, just click on Back in lower−left popup selector.

Version 2.0 major additions:

- More accurate PathFinder algorithm, with individual transfer times
  E.g. in Montparnasse, transfer between lines 4 and 12 much faster than others
- New RER E line addition
- New monuments and Leisure category addition

Version 1.0 was launched in June 1999.

Overview

(i) Paris is your ideal Palm companion in Paris
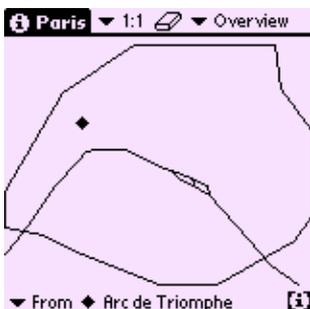

- Select any Metro station, key Monuments, Museums, Leisure Parks
- Locate your destination on the map.
- Compute and display your **fastest metro path**,
- Optimal even from/to Monuments, Museums and Leisure Parks.
- Check metro lines for each station.
- Read a **short description** of places of interest
- Get their Addresses and Telephone numbers.

(i) Paris is really convenient and easy to use

- Clean, robust and efficient graphical interface
- Map layers with Monuments and Museums (upper–right popup)
- New interactive Metro line display (upper–right popup)
- From/To selection and Path calculation (lower–left popup)
- Direct destination Type and Name selection (lower–center)
- Monuments, Museums, stations and Airports Informations (lower–right)

BASIC OPERATIONS

Main form overview
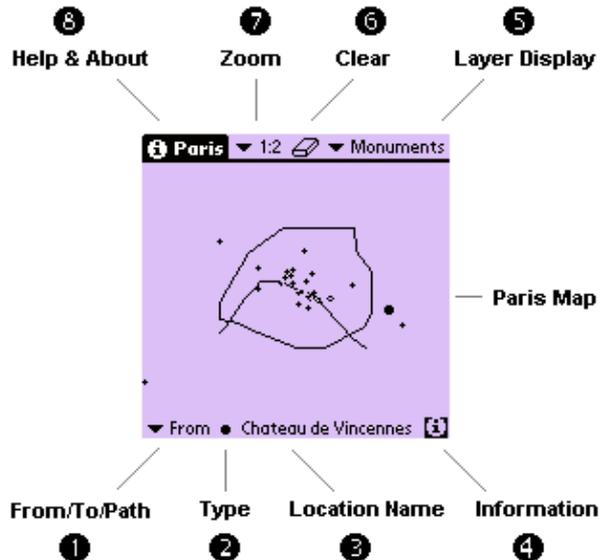

How to select a location?

- Select From or To, with lower−left popup **(1)**
- Select place Type, with the icon **(2)**:

    - Monument (black diamond)
    - Museum (white diamond)
    - Leisure Park (plus sign) or
    - Metro Station (black circle)

- Select place Name itself **(3)** to popup the Letter Directory
- Select the first letter of the place name to popup the Name directory
  if the letter does not appear (eg. R) select the one before (eg. Q)
- Select the place name. Both name and symbol appear.

Selection Tips

- *To select a Monument, Museum or Leisure Park,
  you also can select the relevant Layer (5) and pick the symbol
  directly on the map itself.*
- *To compute your fastest way back, just select Back
  with lower−left popup (1). It swaps From and To.*

How to find the shortest path between two places?

- First select both From and To locations, cf. previous question
- Select **Path**, with lower−left popup **(1)** again
- Select path Summary **(3)** to popup details.
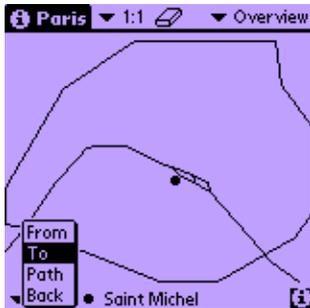

Clear transfer and directions informations:

- Start and End points (stations or monuments, museums...)
- For each transfer, line and direction information
- Station number between all transfers.

- *w* when you have to walk between stations.

How to get information about a place of interest?

- Select the place Type **(2)** and Name **(3)**
- Or pick the symbol on the map if the relevant Layer is visible **(5)**
- Select the information sign **(4)**

How to display monuments, museums and leisure parks positions?

- Select Monuments, Museums and/or Leisure Parks with the upper−right popup **(5)**
- You also can pick symbols to select places
- Just select Overview to clear the Map.
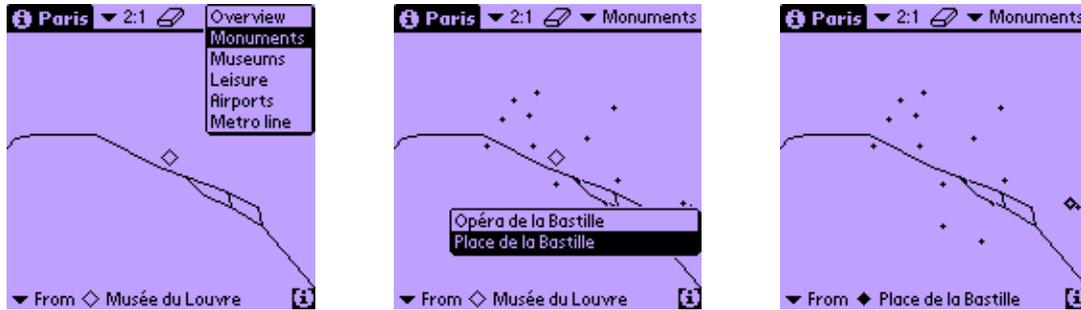

NEW: How to display AIRPORTS information?

- Select Airports with the upper−right popup **(5)**
- Just click on airport button to select Orly or CdG.

## NEW: How to display metro lines?

- Select Metro Line with the upper−right popup **(5)**
- Just pick stations to select them.
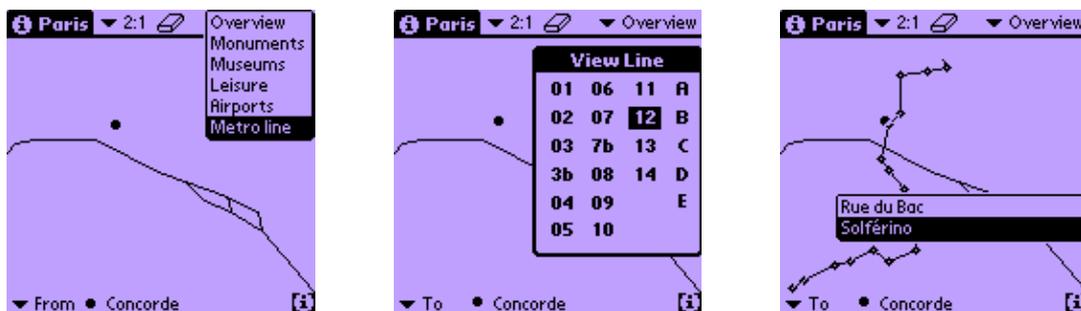

How to zoom in and out?

- Select the zoom level with the upper–left popup **(7)**

    - ♦ 1:1 to fit Paris area into the Palm display
    - ♦ 1:2 to zoom–out (default)
    - ♦ 2:1 to zoom–in

- Zoom–out is automatic if you select a place outside Paris.
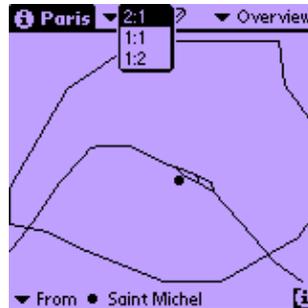

REFERENCE

(i) Paris features more than 340 stations, 16 Metro lines, 5 RER lines and VAL line.

SUPPORT

(i) Paris v.2.2 is shareware at $18.

Thanks to your support, (i) Paris will continue to be enhanced on a regular basis, via **free** upgrades.

Registration

To register, please contact either:

- **PalmGear H.Q.**
  http://www.palmgear.com/software/showsoftware.cfm?prodID=3228
  phone: (1)817.640.6558 – fax: (1)817.640.6614
  or
- **Handango!**, formely known as PalmCentral
  http://www.handango.com/product.shtml?productId=4208
  phone: (1)877–469–7256

These two portals are dedicated to the Palm user community and provide a very safe way to register and pay on–line.
After your online registration, you will receive an e–mail detailing a few steps which will unlock the demo limitation (currently set to 10 path searches). These steps depend on your UserName, i.e. the name you use to hotsync your Palm with your desktop computer.
You won't have to download any other file again.

Tech Support

To download new releases or more information, please go to my web site: **http://www.wizu.com**

Feel free to contact me for any comment or question, just send an e–mail to:
support@wizu.com

Thank you in advance for your cooperation and support.
