## □ About Depth

---

Depth is Panel Application to change the default LCD's depth (colors). Also assign depth for each application.

## □ Requirement

---

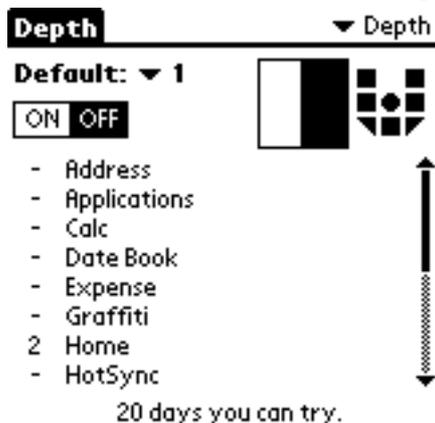

PalmOS 3.1 and later.

## □ Installation & Setup

---

Install Depth.prc with HotSync. When HotSync done, the device request to reset. Tap [Reset] button.

Launch "Prefs" and choose "Depth" at right upper popup menu.

Depth means the number of bits for each pixel.

- 1 ..... 2 colors (black and white)
- 2 ..... 4 colors (4 level gray scale)
- 4 ..... 16 colors (16 level gray scale)
- 8 ..... 256 colors (System color palette)

- Default ..... Change the default depth. Depth means the number of bits for each pixel. This depth is used for every application except for assigned application.
- ON, OFF ..... Turn Depth on and off. If you change this status, you should reset your device.
- Application list ..... Application on the device. If the left column displayed “-”, it means the application uses default depth. Or displayed number, the application uses the depth. To change the depth, tap left column and select the number from popup menu.

You don;t have to reset the device when you change the depth. Only you have to reset the device is when you change the status ON and OFF.

## **□ Contrast**

---

You can change the contrast for 2 bit depth. Choose “Contrast” from “Option” option menu.

Drag the slider control to adjust the contrast.

## ☐ Shareware

---

Depth shareware US\$5. You can try 20 days until you register.

My programs are good, but I can't promise that they're totally bug-free.

There are no guarantees, and I don't take any responsibility for any problems that my programs might cause. If you do find a bug, please let me know. As problems are found, I will fix them and put a new copy of the program on my web page.

Please try my programs before you register. If you decide a program is worth paying for, you can register it. Once registered, though, there are no refunds and you have purchased the product "as is." This is just the way shareware works.

Use KAGI's on-line payment system, please.
