- 1. SHAREWARE INFORMATION**
- 2. SYSTEM REQUIREMENTS**
- 3. INSTALLATION**
- 4. FREQUENTLY ASKED QUESTIONS**
- 5. CONTACTING US**
- 6. OTHER PRODUCTS**
- 7. LICENSE AGREEMENT AND WARRANTY INFORMATION**

Unless you just downloaded this software from our web site or one of our mirror sites you should visit our web site for the latest version or, if you already have the software installed, click the "Check For Update" command on the Help menu.

### **A. ORDERING**

The price is just \$24.95 US for a single user license. You can order online by visiting <http://www.camdevelopment.com/register.htm> You can also order online or by US check/money order using the built-in order wizard on the introduction screen displayed when the software starts.

ALL ORDERING METHODS ARE COMPLETELY SECURE!

### **B. UPDATING/UPGRADING**

**This is a major upgrade from registered users of V5.x and older versions and a minor version update for registered users of BCDP 2000.** If you are a registered user of V5.x or older you can upgrade at a reduced price by visiting <http://www.camdevelopment.com/upgrade.htm> You can also upgrade by US check/money order using the built-in order wizard on the introduction screen displayed when the software starts.

**NOTE: All upgrade requests are verified manually. Upgrade pricing is only available to registered users. Please be sure to upgrade under the same name/company you originally ordered under.**

#### Applying a Minor Version Update

Periodically we release updates to correct problems and make minor feature enhancements. These are referred to as minor version updates. To install a minor version update **make sure BCDP is not running**, then install the update in the same folder your older version is installed in. Setup will update the necessary files. You will not lose any information or settings.

#### Upgrading from V5.5 and Older

To upgrade from V5.5 and older you must install BCDP 2000 in a different folder than your older version is installed in (setup does this automatically by default). After BCDP 2000 is installed and running you can uninstall your old version.

#### Importing Cards Created with V5.5 and Older

To import cards created with BCDP 5.5 and older you can use the Import command on the File menu. Once the card is imported you can edit it and save it in BCDP 2000 format by using the Save or Save As command on the File menu.

#### Importing Templates Created with V5.5 and Older

All templates included with previous releases are included with BCDP 2000. To use templates you created yourself do the following.

1. In your previous version of BCDP, create a card from the template leaving all the fields in the card expert blank.
2. Save the card using Save on the File menu in your previous version and close the program.
3. Start BCDP 2000 and import the card using the Import command on the File menu.
4. Select Save As Template on the File menu to save the card as a template in BCDP 2000 format.

### **1. SHAREWARE INFORMATION**

**THIS PRODUCT IS NOT FREE SOFTWARE.** It is distributed as Shareware, which allows you to *try it before you buy it*. You may evaluate this product for 30 days. If you decide to continue using it, you are required to either register (purchase) it or remove it from your computer.

Shareware gives you the opportunity to fully evaluate a product before spending your hard earned money on it. We're sure you will find this product to be an excellent piece of software so please be honest and register if you continue to use it.

REGISTERED USERS ENJOY:

- Full unlimited registered access.
- Elimination of introduction screens.
- Priority technical support.
- Access to additional add-ins.
- Free minor version updates.
- E-mail notification of new versions and products.
- Special offerings.
- And much more...

To register just click the button on the introduction screen when you start the program to start the built-in order wizard.

### **2. SYSTEM REQUIREMENTS**

- Pentium 75 MHz Processor or Higher
- 16 MB Memory (32 MB Recommended)
- Microsoft Windows 95/98/2000/NT 4 or later
- 5MB Free Disk Space
- Printer Optional

### **3. INSTALLATION**

To install, run the self-installing file.

Once installed please look through the on-line help for information on getting started quickly. We think you will find that the software is well designed, very easy to use and requires very little effort to master.

### **4. FREQUENTLY ASKED QUESTIONS**

If you have any trouble using this software please look through the online help before calling or writing for assistance. There's detailed information on every aspect of the program and a section devoted to frequently asked questions.

To help you find the answers you need as fast as possible we've also posted the latest FAQ's on our web site at:

<http://www.camdevelopment.com/bcdp.htm>

## 5. CONTACTING US

If you have a question **PLEASE** look through the online help and the FAQ section on the web site at:
