- \* DISTRIBUTION
- \* VERSION HISTORY

### **INTRODUCTION**

SuperRam is a program which returns control of memory management back to the user. Windows® oftenly uses up all memory available and leaves the users computer at a slow pace. Also numerous applications that are improperly created also use up vast quantites of RAM/Memory and never reallocate this memory back to the computer. With SuperRam you can at any time reallocate memory back to your computer and gain more computer power in the process. While RAM/Memory is very inexpensive now to purchase it still is difficult for the average person to try to install and improper installation can cause major damage to a computer. Typically the average computer user has a service technician install the RAM/Memory modules which adds significant cost to the hardware upgrade. SuperRam on the other hand is cheap and affordable and can in no way harm or destroy a computer, while providing equivalent power that RAM/Memory modules would. SuperRam is quite easy to use and understand. With a few button pushes and setting changes the application is ready to work. SuperRam starts up automatically when Windows® does and manages memory according to the user's specifications. Try SuperRam for 28 days and if you find it useful please do register.

### **MINIMUM SYSTEM REQUIREMENTS**

- \* Microsoft Windows 95, 98, 2000, Me, XP, NT 4.0
- \* Microsoft Intenet Explorer 3 or higher
- \* Intel Pentium 90 MHz or higher (P 166 MHz recommended)
- \* 8 Mb RAM (32 Mb recommended)
- \* 5 Mb hard disk space
- \* VGA or higher resolution monitor
- \* Mouse or other pointing device

### **INSTALLING THIS PRODUCT**

To install this release to your computer, double click on the file superram.exe that you downloaded from our website and follow the instructions that appear on the screen.

### **UNINSTALLING THIS PRODUCT**

To uninstall this release from your computer, open the Control Panel folder and double-click the Add-Remove Program icon. Select SuperRam from the list, click the Add/Remove button, and follow the instructions that appear on the screen.

Notes:

- \* You may also want to delete the following inifile  
C:\Program Files\SuperRam\SuperRam.ini

If you do not delete this file then no effect to your computer will occur. Deleting this file allows you to completely remove all traces of the software from your computer. If you have registered the software and choose to reinstall the software after deleting this file then you must input the serial number once again within the software.

## **REGISTERING THIS PRODUCT**

SuperRam is shareware, this means it must be purchased before all benefits of the software are available. To remove the trial restrictions within SuperRam please purchase the product online, phone, fax or by mail. SuperRam costs \$11.92 US Dollars and can be purchased from setSystems.

You can register online using your credit card. setSystems offers secure transactions for users of Netscape or Microsoft Internet Explorer. To go to the registration page for SuperRam go to:

<http://secure.pgware.com/purchase.php?product=superram>

- OR -

Alternatively, you can send a check or money order (in US Dollars drawn on a US bank), made payable to 'setSystems' to:

setSystems  
1257 Lake Plaza Drive  
Suite 230  
Colorado Springs, CO 80906  
U.S.A.

On the check or money order include your e-mail address and the Product - SUPERRAM, or include a small note with the check/money order with this information. Please note that orders by check/money order may take up to 1-2 weeks to be processed.

- OR -

Also you can call the toll-free number 1-888-201-7131 to purchase. Callers from outside the US should call 1-719-576-0115.

- OR -

Finally you can fax in the order. Include your full name, address, phone number, credit card details and your email address. Make sure to reference Product - SUPERRAM. Faxes should be sent to: +1 (719) 623-0399.

Upon registration (allow up to 1 working day for your registration to be processed) you will receive your registration serial number. This will be sent by e-mail if an e-mail address was specified when registering. When you receive your serial number, please enter the User/Serial into the program's registration screen and hit OK. The software will then behave as a fully licensed version.

## **TECHNICAL SUPPORT**

There are several ways which you can reach us to receive technical support. Registered customers have priority over non-registered customers in all cases. Most support questions will be handled within 24-48 hours.

WWW: <http://www.pgware.com/support.html>  
E-mail: [support@pgware.com](mailto:support@pgware.com)  
Fax: 815-425-8539 (US)

Questions, comments and technical support is provided between Monday - Friday from 8am - 5pm. Please note however we are closed on major holidays so replies to your requests may be significantly delayed.

## **DISTRIBUTION**

This software can freely be distributed under the agreement that the software itself is not being sold, rented or leased. However you are authorized to charge a minimal fee for any media such as CD-Rom, DVD-Rom, or floppy disks that the software is distributed on. Also the software must not be modified in anyway from it's original packaging/form, nor can any serial codes, key files or registration numbers be provided with the software. Finally the software must not be mis-represented in anyway such as being authored by any other individual/company or reference any association between any other individual/company and PGWARE.

## **VERSION HISTORY**

\* 4.11.17.2003 - Changed compression level of exe to reduce file size/footprint - to make the setup/package smaller in size.

See [HISTORY.TXT](#) for complete version history
