

COMPUSERVE'S CSIR-Net Connect Note: These screens may not appear correctly on the Palm Pilot.

CompuServe's relationship with the CSIR network provides for asynchronous dial-up access from South Africa to hosts on CompuServe.

Dial CSIR-Net's node in South Africa and log on according to the appropriate instructions below. (If you dial CSIR-Net outside of the designated city you will incur normal long distance charges for the duration of the call, billed by your Telkom company on your telephone bill).

ACCESS INSTRUCTIONS: To connect to CompuServe through CSIR-Net, dial one of the local access numbers listed above and follow these logon instructions: 1. Establish a phone connection by dialing the your local CSIR-Net access number listed above.

2. Your screen will show: CONNECT 2400 or the appropriate baud rate at which you have connected.

Wait 5 seconds and type: X.28 where stands for carriage return.

3. Your screen will show: OOOOO O O O OO O O O OOO OO OO O O O O O O O O O O
O OOOO O OO
----- EASY ACCESS AFRIKAANS : SLEUTEL NUI IN.

ENGLISH : ENTER NUI FOR SERVICES.
