

Imagine a world of magic where monsters and evil are a constant threat; where your only hope for survival is to hone your abilities and team up with powerful friends. This is a world where hundreds of thousands of real people come to experience the power of fantasy and friendship. This is the world of GemStone III.

A realm of fantasy, excitement, danger and amusement, award-winning GemStone III is a text-based, multiplayer, fantasy role-playing game. Thousands of players interact simultaneously in an ancient land where bearded Dwarves walk dusty streets with towering Giantmen; where Elvenkind of all shapes and backgrounds find common histories; and where friends are made and lasting bonds forged amidst the heat of battle or the chill of a good Dwarven ale. On occasion, real gems are hidden throughout the game, so find one and win it as a unique keepsake in Gemstone III - the world's most popular online game!

To play GemStone III you will need to have already installed the Simutronics launcher. In addition to this, you will need the Simutronics "Wizard front end". This is the interface for the game. This wizard front end is also used for Dragon Realms and Modus Operandi; you only need to install it once. Click on the install button below to install the "Wizard front end", and "launcher" to the left to install the launcher.

The Simutronics games channel also includes dedicated chat and message boards. To access these you will need the Simutronics Chat and Message board clients. To install these, please click on Chat or Message Board buttons below.
