

In the Caribbean lies the lovely, tropical island of Morada and its beautiful city of Cape Marassas - a sunny paradise of towering palm trees, white sand beaches and marvelous restaurants, but this modernized Casablanca is overrun with nefarious criminals!

Modus Operandi - a live, multi-player, role-playing game - invites players to step into this fictitious world and assume the identity of a sleuth. A footprint in the sand. A fingerprint on broken glass. A silver bullet and a finely sharpened dagger. Can you solve the mystery before you become the next unwilling victim?

Time Warner Electronic Publishing, The Mysterious Press, and Simutronics have combined forces to present this innovative, mystery game incorporating fresh, fully-interactive mystery scenarios. Mingle with fellow tourists amid a myriad of boutiques, the Pirate's Cove Casino, cozy cafes and dilapidated watering holes, after which there's still plenty of time to take a crack at clearing out a few of Morada's Most Wanted. But be careful; some of those criminals can be downright ruthless!

And you thought you were taking a relaxing vacation ...

To play Modus Operandi you will need to have already installed the Simutronics launcher. In addition to this, you will need the Simutronics "Wizard front end". This is the interface for the game. This wizard front end is also used for GemStone III and Dragon Realm; you only need to install it once. Click on the install button below to install the "Wizard front end", and "launcher" to the left to install the launcher.

The Simutronics games channel also includes dedicated chat and message boards. To access these you will need the Simutronics Chat and Message board clients. To install these, please click on Chat or Message Board buttons below.
