

FileMaker Pro 5

Manage your data from desktop to Web.

With FileMaker Pro 5 you can easily create, share and manage information and projects with colleagues over the Intranet. Take advantage of new ground breaking Instant Web Publishing capabilities to render database layouts on your Intranet with just one click – it's that easy. It's the ideal database to use with Microsoft Office for Windows and Macintosh.

FileMaker Pro 5 brings a wide range of new features and improvements to the application. Responding to feedback from users and developers, much attention has been paid to the ways that users interact with the software. Menus, dialog boxes, and tool bars have all received attention in an effort to make the experience of using FileMaker Pro more productive and enjoyable, while FileMaker Pro software's ODBC and Microsoft Office compatibility have also improved. Some of these changes will make the experience of using FileMaker Pro much easier for people that are new to the application, while others are certain to please long time users and developers.

This file contains information regarding:

1. Trial Software Limitations
2. FileMaker Pro 5 Tutorial

1. TRIAL SOFTWARE LIMITATIONS

The trial version of FileMaker Pro 5 is limited in the following ways:

- The trial version will expire 30 days after installation.
- Any database created with the trial may contain a maximum of 50 records.
- Web publishing is limited to 50 records.
- Printed reports contain a watermark with the words "FileMaker Pro" on the background of each page.
- Files may be shared over a network only via TCP/IP. AppleTalk and IPX protocols are not available.
- Several items have been removed from the trial to reduce the size of the download file. This includes FileMaker Pro onscreen Help, spelling checker, some graphics and data import filters, and additional documentation files.

The full version does not contain any of these restrictions.

2. FILEMAKER PRO 5 TUTORIAL

2.1 This trial includes a tutorial that introduces FileMaker Pro 5 to new users. Use it as a starting point to familiarize yourself with the basics of the application and as an introduction to the most popular features of the product.

Use the files in the Tutorial folder with the corresponding lessons in the FMP 5 Trial Tutorial file.

2.2 The tutorial guide, "FMP 5 Trial Tutorial.pdf", must be viewed with Adobe Acrobat Reader. Visit the Adobe web site at www.adobe.com to download the latest version.
