Important Note:

On its own, this CD does not give you access to the E-On services, you must go to the E-On site at <http://www.e-on.com> and subscribe.

This CD contains software that E-On subscribers need to gain access to the games and chat areas of the site.

What is Entertainment Online?

Entertainment Online (E-On) is an Internet based entertainment channel. It includes the best in low latency, online multi-player games, a range of 'hit' download games and electronic centres for media and commerce.

The main areas are:

All these areas are available via our web site at <http://www.e-on.com>

We are not an Internet Service Provider.

Minimum Requirements

- IBM Compatible PC 486 DX2 66 with 8 Mb RAM
- 14.4 bps modem
- An account with an Internet Service Provider (I.S.P.) such as CompuServe or AOL
- Either Microsoft Internet Explorer 2.0 or Netscape Navigator 2.0 (or higher)

Registration and Subscription

There are two classes of user at E-On. Either you are a registered user or a subscribed user.

[Registered Access](#)

[How to register with E-On:](#)

[Subscribed Access](#)

[How to subscribe to E-On:](#)

Registered Access

As a registered user, you will have access to the digital shop and the magazine areas of the site only. None of the games will be available to you. Gaining registered access is free.

You will need to choose a Login name and password when you register. These must be between five and thirteen characters long, in lower case, and contain no spaces.

You have to register before you can subscribe and the Login name and password that you choose when you register is carried over to your subscription.

The registered Login name and password will allow you access to the site. You will not be able to download games or access the Games Room to play the multi-player games until you are a subscriber.

[How to register with E-On:](#)

How to register with E-On:

Start your Internet Browser (Internet Explorer or Netscape Navigator) and type <http://www.e-on.com> into the address box.

Follow the links below:

Click on the welcome to eon text

Welcome to Entertainment OnLine

Click on the log in button

LOG IN

Click on the register link

Enter your personal details in the form provided

Take care to remember your Login name and password

Click the process registration now button at the bottom of the page.

Process FREE Registration

Subscribed Access

To subscribe, you will need to pay a monthly subscription charge. E-On frequently has a range of special offers available and so the charges and access rights may vary. Please check the site regularly for offers.

Full membership allows access to all areas of the site including both the multi-player and download games, and the live chat forums. As a subscriber, you will also be able to take advantage of more of E-Ons special offers and will be given a preferential rate in the digital shop.

Please visit the site to find out subscription charges. The only charge that E-On makes is the monthly subscription. There are no other costs other than those you would normally incur when connecting to the Internet.

[How to subscribe to E-On:](#)

How to subscribe to E-On:

Start your Internet Browser (Internet Explorer or Netscape Navigator) and type:

<http://www.e-on.com>

into the address box. Follow the links below:

Click on the welcome text

Welcome to Entertainment OnLine

Click the Log in button

Enter your Login name and password

Click the Subscribe button

Press the [click here to subscribe](#) text link

Fill in your details on the subscription form

Click the accept terms and process button at the bottom of the page

The E-On Software

This CD contains an interactive demo and the client software that E-On subscribers need to access the games and chat services. The client software consists of two parts: the Game Manager and the Games Room. You will need to install this software in order to access any of the games, educational software and chat on the E-On site.

[The Game Manager](#)

[The Games Room](#)

[Important note](#)

The Game Manager

E-On provides its subscribers with a range of 'hit' games for download. These games cannot be transferred to any other computer. Once they have been downloaded to a subscriber's machine, they will only run on that machine. They need to be refreshed every 30 days.

This does not mean that the user has to download each game over again, they must merely run the Game Manager so it can check that their account is still open (See the Game Manager help file for further details).

When you run the Game Manager for the first time, you must be connected to the Internet and have your subscribed Login name and password ready. After you have entered your details, Game Manager will verify your account with the E-On server and allow you access to the download games that are available from the E-On web site.

See <http://www.e-on.com> for details.

To run the game manager, you MUST be a subscriber and have an open connection to the Internet.

The Games Room

The multi-player games and chat areas can be launched from the Games Room. By clicking the play now icons on the multi-player games web pages at E-On, you will start the Games Room. From the Games Room, you will be able to access all of the multi-player games and chat to other subscribers.

You cannot play any of the multi-player games until you have logged in to the Games Room. You have to enter your subscribed Login name and password to do so.

What is this CD for?

This CD includes a Quick Time (TM) movie which shows what E-On has to offer in an interactive demo. It also includes all the software that you will need to use the service to its full. You must be a subscriber before the software is any use to you.

[Installing the E-On interactive demo.](#)

Installing the E-On interactive demo

To properly view the interactive demo, you must install an application called Apple Quick-time (TM). Quick-time is a movie viewer that allows you to watch animated sequences on a PC. To install all the files that you need to view the interactive demo, please follow the instructions below.

For Windows 95 users

From the Start menu, choose [Run] and type:

D:\E-ON\SETUP.EXE (Where D: is the letter of your CD-ROM drive)

For Windows 3.1x users

From Program Manager, choose [File], [Run] and then type:

D:\E-ON\SETUP.EXE (Where D: is the letter of your CD-ROM drive)

When the install has finished, an E-On program group will have been created. To start the E-On demo, click on the E-On CD-ROM icon.

The Interactive Demo

Mr. E-On is the main character in the interactive demo. He will tell you all about the site and the services on offer, you are also given the chance to install the E-On software from here. To use the demo simply move your mouse pointer around the screen and click on the areas that are of interest to you. The E-On software is available in one of the main areas on the demo. (Right hand side of the main screen) Explore and see what great services E-On has to offer. To exit the interactive demo, press Escape.

The Games Manager and Games Room are put together into a package called Full Install. This may be accessed and installed from the Interactive demo.

If at any time, you wish to exit from the demo, press the Escape key [Esc] on your keyboard.
