

Welcome!

just copy the scrnsav.scr file into your windows/system directory, start control panel, desktop and choose the screen saver. It should appear in the combobox listing all the available screen savers.

This program was written using Visual Basic 3.0 and some API's only!

You can register and thereby receive the complete source for US\$19.90 by typing "go swreg" and entering the ID 3013 while logged on CIS.

Normally, it shouldn't take more than two days until delivery via CIS Mail.

Have fun!

Balthasar T. Indermühle,
INside
