

## Crystal Reports Technical Document

**Subject:** Access denied error  
**Date:** August 1, 1993  
**Versions:** VB

**Situation:**

When printing to a file using the Comma Separated Values file format an ACCESS DENIED ERROR occurs.

**Solution:**

Choose Character Separated Values file format, put in a comma and a space (you can't leave it blank) for the Separator and Quote selections respectively.

**Remarks:**

Each field will have a space before and after each comma.
