Drag 'n' Drop Utilities for Win32 / Windows NT

Release 1.31

*Programs and Documentation Copyright 1992, 1993 by clySmic software.
All rights reserved.*

***These programs are for the March '93 Beta Release of Windows NT
and are Shareware products.***

Installation

Copy the utilities to a directory, keeping the help file (NTUTIL.HLP) in the same directory as the EXE and DLL files. The programs may be run from Program Manager, File Manager, or the command line.

See the help file for complete documentation, an order form, and details on installing CLYSXTEN.DLL, the File Manager Extension.

Viewing the NT Utilities Windows Help File

All documentation and ordering information is contained in the Windows Help file **NTUTIL.HLP**. To see this file, open a command prompt, go to the directory NTUTIL.HLP is in, and type:

WINHLP32 NTUTIL

or click on NTUTIL.HLP in the File Manager. The help file can also be accessed through the system menus of any of the utilities. When accessed from a utility, context-sensitive help is provided (just click **Continue**).
