

Sales Up by Two Million

Record sales of the new line of music boxes has boosted first quarter revenues to the tune of 2 million dollars. It is expected that by the year 1995, one out of every 3 people in the United States and Canada will own a music box.

On the drawing boards are music box watches, dash-board models for cars, waterproof boxes for showers, ultra-light boxes for backpackers, and even an amplified music box that plays a disco version of "Que Sera Sera."

Music boxes with figurines depicting the following occupational motifs will be available in June:

Airline Navigators
Dog Trainers
Lottery Winners
Mercenaries
Quilters

Research indicates that the upsurge in purchasing music boxes stems from a trend towards the traditional. In addition, the actual music has been found to be beneficial to the physical well-being.

After extensive testing, Dr. Hugo Nebula, famous tonal physicist, claims that the vibrations of the metal tines in a music box intone a series of sympathetic notes within the lumbar region, resulting in a harmonious healing of the emotional psyche.

HALVA Goes Retail

A turning point in the history of HALVA International came on January 18th at the Grand Opening of the first HALVA retail outlet in over 50 years as a mail-order house for fine jewelry.

Attending the opening were city officials, the Governor of New York, and the Prime Minister of Atlantis. Our own illustrious President was there for the occasion, and warmly greeted all in attendance.

The reaction from customers was encouraging, with many impressed at the quality line of merchandise and competitive prices throughout the store.

By the end of this year several other retail outlets will be opened throughout major cities in the U.S.A, with plans to open over 1,000 more outlets by the end of 1996.
