

***** WELCOME TO EZ-TAB *****

Here is the easiest way to implement 'Tabbed Dialogs' in Visual Basic:

EZ-Tab - The Visual Basic Tabbed Dialog Control

For information on how to use this control, take a look at the on-line help file EZTAB.HLP and the sample project PROJECT1.MAK.

System requirements:

Visual Basic 2.0 or above
Windows 3.1 or above

Changes to earlier versions:

v1.25: new properties:

- TabPosition (Top, Bottom)
- TabStyle (Chamfered, Slanted)
- TabColor (can be different from BackColor)
- UsePalette (for TabColor)

changed properties:

- TabGroup now read/write at runtime
- Visible now works as expected

additional improvements and fixes.

v1.17: improved performance and event ordering
new licensing scheme (LIC file)
bug fixes

v1.15: multiline dialogs

v1.12: chamfered tabs like WinWord

Registration information:

1. CompuServe:

EZ-Tab can be registered on CIS through the SWREG forum. The ID number is 1763. You will receive the full version by e-mail. There is no s&h charge.

The price for the full version is only \$ 22.50 when registering via SWREG

2. By Mail:

EZ-Tab may be registered by sending a check or money order to the author:
