Contents for VB_APPS Help

VB_APPS is a library of applications and add-on modules for Visual Basic for Windows programmers. VB_APPS applications provide helpful tools right out of the box. Programs include a log, multiple simultaneous timers, encryption front end, password protection, enhanced scroll bars, multiple file starter, and a font viewer.

The unregistered copy has all code compiled into executable programs. Registered users receive all code.

To learn how to use help, press the F1 key.
