

One of the most powerful and widely-used

Whether you are programming in Basic or in C,  
DeskEdit 3 provides a massive range of features to

### 150 special key combinations

DeskEdit has more than 150 special key combinations which will take you through your program definition at a time to Ctrl-D which performs bracket matching. 6

### Edit and Run direct from

Just open a window and type in your program without, and with (optional) automatic saving to save your program at any time, or press

### Special saves

A special backup system lets you backup the program and a brand new safety save feature retains the program saved, as a further backup.

An Undo feature lets you Undo and Redo your editing, and this together with all markers and many other features is optionally saved to disc

### The Toolbox

A powerful toolbox provides the following features:

- M Programmer's calculator
- M Basic renumber
- M Basic abbreviations
- M Customisable keyword help
- M Procedure lister
- M Procedure browser (lists all procs in a window)

### A wealth of procedure & function finders

The Browser can list all function and procedure names. If you click on any Browser entry, you will go straight to the corresponding procedure definition - or click with Adjust, and a new view window will be opened on

### Multiple Search options

DeskEdit provides all the search and replace options of Edit plus some very special ones: DeskEdit's *QuickSearch* can take its target from any marked text (to avoid typing), and you can specify that it will only find
