UTILITY 1-2-3 PROKEY MACROS

Utility 1-2-3's specialized Prokey file, Lotus.pro, couples the power of ProKey with logical use of the IBM keyboard to free you of some of the tedium of typing out often-used Lotus commands. Utility 1-2-3's set of macros purposefully avoids the use of the Alternate Key in combination with letters and the 0 key, to free these for your direct use with Lotus.

SET-UP

If you have followed the recommended Set-Up procedure, a copy of Lotus.pro exists on your Lotus System Disk. In this case;

With the Lotus System disk in Drive "A" and your ProKey program in drive "B",

put: LOTUS SYSTEM DISK
in: DRIVE A

and type: B:PROKEY/R A:LOTUS.PRO

and then boot up Lotus.

0

0

0 0 0 0 0 0 0 0 0 0 0 0

If you have not copied the LOTUS.PRO file onto your Lotus System Disk, then load ProKey using the UTILITY 1-2-3 disk as the source of the LOTUS.PRO file.

For example,

put: PROKEY
in: DRIVE A

and

put: UTILITY 1-2-3
in: DRIVE B

and type: PROKEY/R B:LOTUS.PRO
