Instructions...

- Build your screen on the side, such as range S1..Z20. Once you are done, resave this worksheet, load the worksheet you designed the screen for and do a File Combine at the appropriate location. The range S1..Z20 is named SCREEN, so keystrokes may be as follows:
/File,Combine,Copy,Named Range,SCREEN <RETURN>,FILENAME <RETURN>.
- If you will be using column widths other than 9, You'll save time if you adjust the column widths on this worksheet first, and then proceed to build your screen. Be sure you have named the whole screen before you save this worksheet.
- You are encouraged to copy this Screen Editor and share it with other Lotus users. If you send a \$100,000 dollar contribution, you will receive a brand new computer each year, and periodic updates of this wonderful program.
- So hurry..take advantage of this limited time offer and rush your check (comments/suggestions also welcome) to:

Hit <RETURN> to Continue...
