

## Sheet1

### POWER WINDOWS (For Lotus 1-2-3) version 5.4

#### INTRODUCTION:

Power Windows is on a worksheet named AUTO123.WK1 containing macros.  
The installation program will copy AUTO123.WK1 to the 1-2-3 directory.  
This worksheet will load automatically when you start Lotus 1-2-3.  
(if this does not happen, review USING POWER WINDOWS below.)  
AUTO123.WK1 does not take much disk space (about 11k bytes).

Power Windows works for DOS releases 2.2 and up and any windows release.  
Power Windows displays your drives and directories upon retrieval.  
Highlight a file and press ENTER for the Retrieve, Delete, or View menu.

This is another quality shareware program from:

Soft Breeze

Daphne, AL 36526

### POWER WINDOWS (For Lotus 1-2-3) version 5.4

#### USING POWER WINDOWS :

Power Windows is a macro contained on the Lotus 1-2-3 worksheet AUTO123.  
The macro should execute immediately upon retrieval of this worksheet.  
(If not, type "/ W(orksheet) G(lobal) D(efault) A(utoexec) Y(es)").  
Once the macro begins, you will see a display of your directory items.  
The list of directory items appears on the left side window.

To navigate to any drive or directory, highlight it and press ENTER.  
Pressing ENTER on the entry of ".." takes you back up the directory tree.  
(Going backwards at the root directory will cause an error, of course.)

Press the ENTER key on a worksheet name and the file menu will pop up.  
The file menu can retrieve, delete, view, or create a blank worksheet.  
Warning: Be careful with the delete option, there is NO confirmation.  
The view option gives a quick snapshot of the worksheet selected.

#### WARRANTY AND DISCLAIMERS:

1. Power Windows is copyrighted property of Soft Breeze (formerly SPE)  
and Gregory M. Brown and is protected under the copyright laws  
provided by Title 17 of the United States Commerical Code.
