

CIMRATER V 2.8

CimRater is a small application designed to start WinCim V 1.1 as well as connect to Basic and keep track of your WinCim Charges. The Rate of hourly connection is user definable. The charges will be saved in log files and will be dated when saved so permanent records can be kept for your on-line charges. Log files can be chosen and displayed on screen for easy reference.

The actual timer is small stays on top of your WinCim screen, and can be moved by clicking the top of the Timer and dragging it. The Buttons are self explanatory and change with your selection.

New: Version 2.8 is a little better in memory usage and has some of the earlier bugs ironed out. You can also choose to start Wincim with any go command. This means you can go directly to your area of choice. Thanks to user input Startup procedures can be selected after pushing the Log [See] button.

- " CIMRATER only " will start the CimRater only
- " LOGON BASIC " will connect to Basic services on-line
- " START 'U DEFINE " will ask for the directory of the Application you wish to start, etc. "C:\Cserve\Wincim" then asks you for the name of the file expl. "Wincim.Exe" the next time you start up, it will start the chosen application, start CimRater and wait for you to log on.
- " GO COMMAND " will ask you for a acceptable CIS go command exp. "WCIMSUPPO " would get you to Wincim Support Forum.
- Rate amount can be entered in the text box
- By selecting the "Close Wincim on Exit". Wincim will exit when you exit CimRater

Registration is simple and easy:

- Log on to Compuserve
 - Go Swreg
 - Enter ID Number **1944**
 - Version 2.8
 - Follow Instructions
 - a \$8.00 Charge will be added on to your Compuserve bill
 - I will supply your code as soon as I receive conformation
- That's all.

File List:

CmRate28.exe
