

PowerBBS for Windows 3.5

Order Form

Pricing and Ordering Information

The Support BBS will no longer have registered versions of the software available for download. You must order the disks directly from us. We will send to you two 3.5" disks and a bound manual.

If you are already a registered user of PowerBBS for Windows, any version, **do not download the shareware version.** If you do, you will have to wait for your disks to arrive before you can upgrade to the registered version. Your callers will see the shareware notification screens until that time. Save yourself the long distance charges and wait for your disks in the mail.

If you are still evaluating the shareware version of PowerBBS, you can download the new version and look it over as well. If you continue to use PowerBBS beyond a reasonable trial period (30 days), you are legally and morally obligated to register the software or discontinue using it.

Commercial users of PowerBBS **must** register and pay for their copies of PowerBBS within 30 days of first use or their license is withdrawn. Site license arrangements may be made by contacting Russell Frey at the Support BBS.
