Last reminded Date:

Setup of **Yeah!**

I think most of the stuff is logic.

Global IniFile is a File where all users of a Network may have shortnames.

The image shows a Windows-style dialog box titled "Yeah! Setup". It contains several sections with checkboxes and input fields. The "Window" section has "Save Window Position" and "Always on Top" checked, and a "Clocktimer in seconds" field set to 10. The "IniFile's" section has "Search in Inifiles" checked and a "Global IniFile:" field containing "u:\@.ini". The "Hotlist + History" section has "Save Hotlist" unchecked (with a field of 200), "Ask to overwrite" checked, "Save History" checked (with a field of 200), "Ask to overwrite" unchecked, "Add Entry in History with SHORTNAME" unchecked, and "Add also wrong Commands to History" checked. The "Picture Specific:" section has "On Drop Picturefiles use there as Wallpaper" checked (with a "Timer in seconds:" field of 1), "Adjust Colors to my Screen" checked, "Grayscale all pictures" unchecked, and "Display name of picture on desktop" checked. At the bottom right are "Startup", "OK", and "Cancel" buttons.

Section	Option	Value / State
Window	<input checked="" type="checkbox"/> Save Window Position	Checked
	<input checked="" type="checkbox"/> Always on Top	Checked
	Clocktimer in seconds:	10
IniFile's	<input checked="" type="checkbox"/> Search in Inifiles	Checked
	Global IniFile:	u:\@.ini
Hotlist + History	<input type="checkbox"/> Save Hotlist	200
	<input checked="" type="checkbox"/> Ask to overwrite	Checked
	<input checked="" type="checkbox"/> Save History	200
	<input type="checkbox"/> Ask to overwrite	Unchecked
	<input type="checkbox"/> Add Entry in History with SHORTNAME	Unchecked
	<input checked="" type="checkbox"/> Add also wrong Commands to History	Checked
Picture Specific:	<input checked="" type="checkbox"/> On Drop Picturefiles use there as Wallpaper	1
	<input checked="" type="checkbox"/> Adjust Colors to my Screen	Checked
	<input type="checkbox"/> Grayscale all pictures	Unchecked
	<input checked="" type="checkbox"/> Display name of picture on desktop	Checked
Buttons		Startup, OK, Cancel

Startup of Yeah!

I think most of the stuff is logic.

The screenshot shows a window titled "Startup Automation". It contains a list of programs with their IDs and names:

ID	Program Name
0010	nwpopup.exe
0050	topgirl
0100	u:\winfile.exe
0500	u:\mbcabout.exe

Below the list, the selected program is shown: #/PRG: 010 u:\winfile.exe

Configuration options for the selected program:

- ☒ Pos. it: X: 629, Y: 1, Width: 396, Height: 647
- ☐ Weekday: ☐ Sunday, ☐ Monday, ☐ Tuesday, ☐ Wednesday, ☐ Thursday, ☐ Friday, ☐ Saturday, ☒ Everyday
- ☐ Start only once a Day
- ☒ Ask to start
- ☒ Default YES
- Time: 3
- ☐ Intern
- ☒ Show

Buttons: ADD, OK, Save, Cancel, Delete

Add an Entry

Add Command	
Shortname:	ThisIsYourShortCommand
Command:	extees=S:\WA\TOOLS\INFO_BMP.EXE F:\mbc\bilder\bmp.V
<input type="checkbox"/> Save Global for all Users	
<div>OK Cancel</div>	

Display BMP/GIFS/TIFS Files as wallpaper

For all of the explained function you have to click at the marked positon.

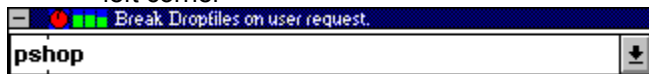

DoubleClick for Tile/Center/Break

Doubleclick with the left mouse to *center* next picture
Doubleclick again to put the next picture to the upper
left corner

Doubleclick with the right mouse to *tile* next picture
Doubleclick again to put the next picture to the upper
left corner

Doubleclick with the right or left mouse and hold the CTRL-Key down to break the showing of the pictures.

NOTE: You must mark in the Setup "On Drop Picturefiles use there as Wallpaper. The Number behind this entry means the second between the pictures.

With **Version 3.8 and later** you have also the possibility to change Wallpapers from 10 to 320 Minutes automaticly. You may als click at the Clock with the right mousebutton to change the paper now. USE the CTRL-Key to get the picture from other Directories or Sections then the first in the List. This works only with GIFs and BMPs.

Boss Picture

Hold the right button down and doubleclick on the close icon of yeah!

If you have put a Boss-Picture File in Yeah!.ini you may also hold down the CTRL-Key

Internal Commands **Yeah!**

DISPLAY	PathAndNameOfPicture
RestartWindows	Restarts Windows
RebootSystem	Reboots the System
MasterOfYeah!	Sets the ! to add Commands to the global INI in Networks

Use also DOS COMMANDS

~~THE following commands are implemented:~~

~~HELP~~

~~DIR~~

~~COPY~~

~~DEL~~

~~CD ..~~

~~CD \~~

~~dir *.*~~

~~dir *.exe~~

~~etc..~~

These commands has been removed since Version 2.5

This is my IniFile of Yeah!

Double-Click to close Yeah!.

If you click double-click with the right button you get the about Box.

Type in the Shortname of your application.

On the second line you have to put the name of the program or file with all the parameters you like.
You may also use Drag and Drop to put the file with the path on the second line.

Save Global for all Users means, that if you save it, all users with the same global INI file will have this new entry.

1. **ADD** write a command and double-Click with Left mouse-button.
2. **DEL** Open HOTLIST and select an entry with the cursor-keys.
2.1. Double-click with the Right mouse-button.
3. **UP** Open HOTLIST and select an entry with the cursor-keys.
3.1. Double-click with the Right mouse-button and press the SHIFT-KEY down.
4. **DOW** Open HOTLIST and select an entry with the cursor-keys.
 N
4.1. Double-click with the Right mouse-button and press the CTRL-KEY down.

Double-Click to get the Window to enter Dates to remind you.

The first shows SYSTEM in %
The second shows GDI in %
The Third shows USER in %

Tasks running System, GDI, User in % and Date/Time.

Notes

USE OF YEAH!

The YEAH! and all other programs which are included were distributed as shareware for home use, but must be licensed for use within a business, corporation, or organization. This includes educational institutions and government agencies. If you are a shareware distributor you may distribute all software listed below in the registration form as long as you contact me (Th. Stoll) for permission first. You must distribute all the files intact and in unmodified form (duplicate files may be removed) and may not charge more than a reasonable disk copying fee. If you are a System Operator and run a publically-accessible BBS for which there is no usage fee then you may use the software free of charge--that's our way of saying thanks.

REGISTRATION FOR YEAH!

Registration is required for the use of the YEAH! and all files described in this documentation. This form should be used to register it.

Warranty

IN NO EVENT SHALL T.STOLL BE LIABLE FOR ANY LOSS OF PROFIT OR ANY OTHER COMMERCIAL DAMAGE, INCLUDING BUT NOT LIMITED TO SPECIAL, INCIDENTAL, CONSEQUENTIAL OR OTHER DAMAGES. T.STOLL(THE AUTHOR) SPECIFICALLY DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE OR PURPOSE, RELATED TO DEFECTS IN THE DISKETTE AND DOCUMENTATION.

REGISTRATION FORM for **Version 3.5**

You can order from Thomas Stoll (myself) or from Public (software) Library with your MC, Visa, AMEx, or Discover card by calling 800-242-4PsL (from overseas: 713-524-6394) or by FAX to 713-524-6398 or by CompuServe to 71355,470. **Please use item number #11006 to order Yeah!. It'll be faster to go to you.** THESE NUMBERS ARE FOR ORDERING ONLY. Thomas Stoll can NOT be reached at those numbers. To contact Thomas Stoll for information about dealer pricing, volume discounts, site licensing, the status of shipment of the product, the latest version number or for technical information, or to discuss returns, call +41 1 451 29 79 or write to myself (Thomas Stoll)
