# **Noumena Scope of Services**

Noumena offers its clients tailored services in four major categories:

**Strategic Services:** development of strategic planning scenarios, options, market strategies and financial/returned business value models to support the firm's development of electronic commerce products and services.

**IT Architectural Services:** specification of data, applications and technology architectures to support electronic commerce strategies

**Design Services:** design (and when necessary implementation) of specific electronic commerce information products and applications.

**Planning Services:** development of detailed project plans, outsourcing/cosourcing agreements, personnel skilling programs and change management initiatives associated with the transition to digital firms and electronic commerce.

**Product Licensing And Pricing**

# Noumena Overview

*Noumenal means apprehended by the mind; and the characteristics property of things of the noumenal world is that they cannot be comprehended by the same method by which things things of the phenomenal world are comprehended.*

*P.D. Ouspenksy*

Noumena is a private electronic commerce consultancy, advising its commercial customers on strategic, architectural and technical problems associated with the emergence of commercial inter-firm computing, the InfoBahn and the wired home. Employing cutting-edge conceptualization, planning, design and execution methodologies, Noumena ensures that its clients make the right moves, build the right models, choose the right people and deploy the right technologies properly, just in time, and without error.

# **Noumena Product and Support Pricing**

All Noumena software products cost \$10 (US), regardless of complexity.

You will receive no support and no point release updates unless you pay for the software.

Site licenses for single organizations are \$100 (US) per product, regardless of number of seats.

You can distribute Noumena products as you like, as long as you distribute them in toto (for example, sending the help file along with the binary).
