

*OmniScan*  
**OmniScan/Word for Windows OCR macro**

This describes the installation procedure for OmniScan, Caere's OmniPage/WinWord macro. This macro allows you to scan text directly into your WinWord document. To install this macro:

1. From the Macro/Run menu, run the InstallOmniScan macro.
2. When this document returns to your screen, open the File menu and note that a "**Scan Text...**" command has been added.
3. Choose **Save All** from the File menu. You'll be prompted to "Save global glossary and command changes". Click **Yes**. If you are prompted to "Save large clipboard, click **No**.
