

## Mr. Format Version 2.0a

Mr. Format is a simple-to-use Windows utility program that facilitates the following operations:

- 1) *Floppy Disk Formatting.*
- 2) *File Encryption using phrases or single words as passwords.*

## What makes Mr. Format worth the \$10?

1) Mr. Format is the **ONLY** disk formatting utility that allows you to quickly format a series of diskettes (like a new box of blank diskettes). All you have to do is remove the formatted floppy, insert the next floppy to format, and press [ENTER]. No more setting parameters each time!! The format starts just like the first!

2) Mr. Format is the **FASTEST** disk formatting utility available. You can format a diskette in much less time than Windows' File Manager, Norton Desktop, PC Tools, and other formatting utilities. Spend less time waiting for a format processing. Save time!

3) Mr. Format **runs in the background!** You can format diskettes while playing Solitaire, writing a letter to Mom, or anything else you might do (as long as the program you are using doesn't access the floppy drive you are formatting.)

4) The encryption routines are **fast and reliable**, written in assembly language! Encryption in Mr. Format is significantly faster than routines found in some other commercial encryption utilities.

***NOTE: They are fast and reliable, however, not 100% secure. No security measure can be expected to provide complete data security.***

**Mr. Format is the ONLY product you can purchase for \$10 that can do the above tasks. No other program can make this claim, commercial or shareware! Your \$10 buys the best!**

## How To Order a "Registered Version"

Mr Format can be purchased for the low price of \$10.00 US. Upon receipt of payment, you will receive a **registered copy of Mr. Format** (without the 15 day time lock). You will also be entitled to **Technical support** via US Mail and CompuServe. You will be sent a **printed user manual** and be notified when **new versions** of Mr. Format become available. You will also be eligible to **beta test future versions**.

Canadian orders add \$2.00 additional to cover postage and handling.  
International orders include \$4.00 additional for postage and handling. Send  
check or money orders to:

**Chris Adler**  
**1301 West 1600 North**  
**Orem, UT 84057**

**Questions? Email Chris Adler @ CompuServe ID: 71726,2677**

Mr. Format can be purchased in quantity orders under a site license. Write for  
more details.

## **License, Copyright and Warranty Notice**

Mr. Format is a "shareware" product, not "freeware". The purchaser is licensed  
to use this program "like a book". The program may be used by other people, or  
used on more than one machine, but just like a book can be read by only one  
person at a time, the program may be used by only one person on one machine  
at a time. Copies may be made only for backup use by the purchaser or for use  
as described above. This software is copyright (c) 1993-1994 by Chris Adler. All  
rights are reserved. No express or implied warranties are granted regarding the  
fitness of this program or manual for any purpose.

Chris Adler is not liable for any damages that occur to hardware or software as a  
result, directly or indirectly, of using Mr. Format or any of the associated  
applications distributed with Mr. Format.
