

## AppleEvents

InterNews supports the four basic required AppleEvents:

- You can open InterNews from another application that can send AppleEvents.
- You can quit InterNews from another application that can send AppleEvents.
- You can open subscription files and composition files from the Finder and from other applications that can send AppleEvents. When you open a composition file this way, InterNews will ask you for a subscription file before showing you the Composition window.
- You can print composition files from the Finder or other applications. Subscription files cannot be printed.
