The File Menu

- New Subscription File will create a new subscription file.
- Open Subscription File… will open an existing subscription file.
- Close Subscription File will close the current subscription file.
  Close Window will close the frontmost window.
- Save Subscription File will save your current subscription file.
- Save Subscription File As… will save your current subscription information in a new file.
- Save Composition will save the contents of a composition window in a file.
- Save Article As Text… will save the entire article in a text file, even if it was too long to display.
- Append Article to Text File… will append the entire article to the specified text file, even if it was too long to display.
- Print… will print the selected article, the current composition, or the current Help topic. If there is text selected in the frontmost window, this menu item will be Print Selected Text… and just the selection will be printed.
- Sign On will authenticate you for posting by asking for your name and password. Sign Off will sign you off. You can always read articles whether you are signed on or not.
- Disconnct Server will disconnect from the news server (newshost);
  Connect to Server will make the connection again.
