AutoLaunch was developed using Symantec C++ (THINK C, actually), so portions are copyright Symantec Corp. We'd like to thank the folks at Kinetix Digital Animation and Design, Inc. for providing the impetus for developing the AutoLaunch engine.

While St. Clair Software has made every effort to deliver a high quality product, we do not guarantee that this product is free from defects. St. Clair Software is not responsible for any damage to the purchaser's computer system or data and in no event will St. Clair Software, its officers, directors, employees or agents be responsible to the purchaser for any consequential, incidental, or indirect damages (including but not limited to damages for loss of business profits, business interruption, or loss of data) arising out of the use or inability to use the St. Clair Software product, even if St. Clair Software has been advised of the possibility of such damages. Because some states do not allow the exclusion or limitation of liability for consequential or incidental damages, the above limitations may not apply to you.
