BatChmod is free.

Bandwidth is not free. Please donate to help pay for my space on the Internet ;-)

If you like BatChmod and would like me to add a specific feature, I may be convinced to do it if you send me an email.

There is no formal registration process, but if you would like to be notified of updates... send me a message, I'll try to stay on top of things.

Thanks to all who sent in comments and requests, and more specifically to:
Norbert Rittel, Hugh Schickel and Guido Neitzer

and special thanks to:
Rainer Bockerhoff
creator of the extremely complete file info tool: XRay! (<http://www.bockerhoff.net/>)

thanks to E-WA for the Japaneze localization
and Rob Das for Dutch!

oh, and if BatChmod doesn't do all you want, you can also try out FileXaminer from Gideon Softworks, another really complete tool for file manipulations.
