

## FTP CD-ROM SPECIAL OFFER

**VBAssist™ 3.5:** The latest version of Sheridan's award-winning application that allows you to develop applications in Microsoft® Visual Basic® in a fraction of the time. Added in this version are over 25 new alignment features, a new Tabbed Toolbar interface, the Common Dialog Wizard and the MessageBox Wizard. Still incorporates all the features you know and need from the previous version including tools for alignment, tab order, control arrays, Property Templates, an MDI code editor and visual clipboard. Also includes picture capture, Property Synchronization, Lock Mode. The Data Assistant lets you bind controls via drag and drop, and the FormWizard will create an entire form automatically from any table at the click of a mouse. The essential productivity tool for anyone programming in Visual Basic.

Manufacturer's List Price: \$179.00 Current Version: 3.5 **Special Offer: \$99.00**

**Data Widgets™** : Custom bound data controls that are designed to take all of the work out of designing front ends for database applications in Visual Basic. Includes a bound, fully editable DataGrid™ with all the look and feel of the Microsoft Access grid. Also includes bound DataCombo where edit and drop down portions can be linked to separate data controls. Included also are an Enhanced Data Control, a DataDropDown control, a DataOption Button and a Data Button.

Manufacturer's List Price: \$129.00 Current Version: 1.0 **Special Offer: \$99.00**

**Calendar Widgets™** : A set of four controls perfect for use in developing any Windows®-based application that needs to visually display, select and manage dates and times. Including versions for 16-bit Visual Basic® Custom Controls and 16- and 32- bit OLE Controls, it is a natural for PIMs or any other time/date application. MonthView displays one to three months at a time for quick and easy selection of dates. YearView displays one year at a time and can be the foundation of any year-planning application. DateCombo offers total flexibility in specifying the input and format masks, guaranteeing easy and correct entry. DateCombo is data-bindable with a customizable user interface. DayView incorporates a daily time schedule into an application.

Manufacturer's List Price: \$139.00 Current Version: 1.0 **Special Offer: \$99.00**

**3-D Widgets™** : A collection of custom controls designed to give your applications that state-of-the-art 3-D look. Includes CheckBox, Command Button, Frame, Option Button, Panel, Ribbon Button, ListBox, File ListBox, Directory ListBox, Drive ListBox, ComboBox, and 3-D Menu. Compatible with Visual Basic and Visual C++™.

Manufacturer's List Price: \$109.00 Current Version: 1.0 **Special Offer: \$99.00**
