

Amiga Mail

Volume II

***The Commodore Amiga
Technical Newsletter***

March/April 1991

Amiga Mail is published six times annually by the Commodore Applications and Technical Support Group (CATS). Its purpose is to support third-party developers of Amiga software and hardware worldwide by providing technical information and programming guidelines. Each issue features a collection of news and technical articles of special interest to Amiga product developers. The technical articles in each issue can be saved for future use in the *Amiga Mail Tech Notes binder*, a reference notebook containing all the articles from past issues of *Amiga Mail*.

For filing technical articles in the *Amiga Mail Tech Notes binder*, just use the chapter and page numbers listed in the footer of each article page. The *Tech Notes* chapter is shown as a Roman numeral followed by the page number within that chapter.

For instance, the article at right would be filed in chapter III of the *Amiga Tech Notes binder*, "Exec". The article starts on page 99 of that chapter in the binder.

For more information on the *Amiga Mail Tech Notes binder* and the *Commodore Developer Support Program*, contact your local support manager or if you are in the U.S., contact CATS at (215) 431-9180.
