

Welcome to WinGames vol. 2 - Featuring over 125 games for Windows 3.1

Please note that all games on this CD is SHAREWARE / FREEWARE / PUBLIC DOMAIN or some other form of free distributable software.

All the games on this CD are installed into different directories.  
Use your Windows File Manager, or other file browser to try the games.  
Use the Windows Drag And Drop interface to create icons for your favourite games on this CD.

However, due to the magnitude of programs on this CD-ROM, the producer of this CD-ROM cannot be held responsible for any file which contains such copyrighted material. If you discover such material please contact your supplier, with information about, on which CD-ROM you have found the material, the name, date and size of the file(s), then the offending file(s) will be removed on the next production (pressing) of the disc, and from our software archives.

Visual Basic Runtime .DLL's VBRUN100.DLL VBRUN200.DLL & VBRUN300.DLL is in the \VBRUNS directory.

McAfee antivira programs v114 are in the \ANTIVIRA directory.

Please remember, that shareware, is a cheap way to try-before-you-buy so if you decide to use a particular piece of software beyond a reasonable tryout period, you are required to fulfill the requirements set forth by the programmer. See the documentation with the program for information on how to register.

If a game seems not to work properly, please try to make a copy onto your harddisk, and run it from there.
