Java(tm) Interest Mailing List Information

Subscribers to this list are interested in the Java language, independent of the HotJava WWW browser. Java is the extension language of HotJava, Sun's WWW browser with executable content.

To subscribe send the word "subscribe" in the BODY of a message to java-interest-request@java.sun.com.

Note that there is also a digest version of the java-interest mailing list. To subscribe to the digest send "subscribe" to java-interest-digest-request@java.sun.com . Submissions to the list should go to java-interest@java.sun.com .

Discussions concerning the HotJava browser should be directed to the hotjava-interest@java.sun.com mailing list.

Discussions or questions about porting the Java language and runtime should be directed to the <mailto:java-porting@java.sun.com> mailing list.

This list is moderated by Chris Warth (csw@sun.com)

If you would like to browse the *Java(tm) Interest Mailing List Archive* go to <http://java.sun.com/archives/java-interest/>
