- * The purchase price for the first User for each platform at a Site is \$65.00. This price includes one set of Media. Media is defined as one user manual, one master floppy disk, and one quick reference guide. An additional quick reference guide for every ten Users is provided at no charge. After the first User, the license prices do not include Media. See Optional Items (below) for additional documentation.

** Mac Eudora supports the Power Macintosh platform; Windows Eudora supports Windows NT and OS/2 platforms.

*** Spellswell™ is a spell checker and proofreader for the Macintosh™. On Macintoshes running System 7, Spellswell can work directly inside applications like Eudora by QUALCOMM that support the “Word Services” Apple Event Suite. Spellswell is manufactured and supported by Working Software, Inc. Current Mac Eudora licensees may purchase the Spellswell option in license quantities not to exceed the total number of licensed Mac Eudora Users.

30-Day Money Back Guarantee

The prices above are for Users at a single Site.

- Users are your company’s or institution’s current employees whose primary electronic mail mailbox is on a central server located within the Site. For qualifying educational institutions, “Users” also means faculty and staff teaching for or employed by your institution and registered students enrolled with your institution who have electronic mailboxes on a central server within the Site.

Users will be able to use Eudora on your company’s or institution’s workstation or portable computers and on their personal computers at home. Each User’s primary workstation at the Site should be used to determine the type of User to order, Macintosh or Windows. Users may obtain the Media for a different platform as Optional Items (below).

- Site is (i) an individual, (ii) a single corporation or similar business or commercial entity, (iii) a government agency, or (iv) a single campus of an educational organization, or any portion of the foregoing, which employs the Users and centralizes the support function for electronic mail through the designated technical contacts.

The purchase price for each Site license of Eudora also includes one year of technical support at no charge (beginning on the date of initial purchase or receipt of registration). Technical support includes all maintenance releases to the Eudora software and access to telephone and e-mail support by your Site’s designated contact(s). Each Site is allowed up to two technical contacts – one for Mac Eudora and one for Windows Eudora. An additional technical contact is allowed for Sites greater than 100 Users. User prices for add-on purchases are based on the cumulative total number of Users at a Site, irrespective of platform. Educational discounts are available for qualified institutions, staff, and registered students (verification required). Call (800) 2-Eudora for additional information.

User Manual(s)

\$15.00

3.5” Floppy Disk (per platform)

\$2.00

Quick Reference Guide(s)

\$1.50

Eudora T-shirt (X-large only)

\$14.00

Extended Telephone Technical Support:

After the first year, e-mail technical support and maintenance releases continue to be made available at no charge (maintenance releases available electronically via the Internet). If you would like to continue to receive telephone technical support for Eudora, you may extend this type of support under one of two pay-for-support plans, as follows:

- The Per Incident plan allows your Site's technical contact(s) to call for technical support on an as-needed basis. You will be billed a \$75.00 Incident fee at the time of the call. Any follow-up calls related to the questions put forth in the initial call are considered part of the same Incident, and you will not incur any additional charges. However, if questions unrelated to those asked in the initial call are put forth during a follow-up call, these may constitute an additional Incident (at QUALCOMM's discretion).
- The Annual Support plan allows your Site's technical contact(s) to call for technical support at any time during the plan year. The cost for the plan is \$3500.00, and it includes unlimited Incidents.

Prices effective through 15 November 1994
