Registration Form

About

The About menu has two options:

About: Provides you with copyright and version information for the program.   It also provides the name of the registered user.

Registration (Unregistered Version Only):   Brings up the Write program with the registration form for BitMapZ.   You can fill out the form and print it using this option.

File Menu

[Open](#)
[New](#)
[Delete](#)
[BackUp](#)
[Exit](#)

Delete

This menu option allows you to delete a BitMapZ show file from within the program.   It is easier to use than searching through file directories looking for the appropriate file names.

The Delete BitMapZ Show file dialog box will appear after selecting this option.

If the file is on a different drive, select the drive you want from the Drives box.

In the Directories box, double-click the directory you want.

Or press the UP ARROW or DOWN ARROW   key to select the directory, and then press ENTER. The current directory will initially be the same   directory as the currently selected BitMapZ show file.

Once you have selected with file, it is deleted with a double click, or by hitting the OK button.

Exit

This menu option will allow you to Exit the program and return to Windows.

BackUp

This option will back up the show files you are currently using to disk.   You will be shown the total size and number of entries in the status box. You can back up to A or B drives, and the program will utilize any format of disk.

The program will prompt you to change disks as they become full.   This method of back up does not use compression and can only be used until your show file reaches about 1000 entries.   After that we recommend using FLEXIBAK Plus, see Appendix C of   BITMAPZ.WRI for more information on FLEXIBAK Plus.

New

This menu option allows to create a new BitMapZ show file for use.   All BitMapZ show files have the extension BPZ.

The Create BitMapZ Show file dialog box will appear after selecting this option.

If the desired location for the file is on a different drive, select the drive you want from the Drives box.

In the Directories box, double-click the directory you want.

Or press the UP ARROW or DOWN ARROW   key to select the directory, and then press ENTER.   The current directory will initially be the same   directory as the currently selected BitMapZ show file.

In the File Name box, enter the name of the file you want to create.

Double-click the name of the BitMapZ show file   or choose OK.

Open

This menu option allows to select a BitMapZ show file for use.   All BitMapZ show files have the extension BPZ.

The Open BitMapZ Show file dialog box will appear after selecting this option.

If the file is on a different drive, select the drive you want from the Drives box.

In the Directories box, double-click the directory you want.

Or press the UP ARROW or DOWN ARROW   key to select the directory, and then press ENTER. The current directory will initially be the same   directory as the currently selected BitMapZ show file.

In the File Name box, double-click the name of the BitMapZ show file you want to open.

Or select the file and choose OK.

If you enter a file name not in use, you will be asked if you want to create a new file with that name.

Default BMP Path

This menu option allows to you to choose the default path that will be looked in FIRST when selecting a BMP for use.

The Default BMP Path file dialog box will appear after selecting this option.

If the desired location is on a different drive, select the drive you want from the Drives box.

In the Directories box, double-click the directory you want.

Or press the UP ARROW or DOWN ARROW   key to select the directory, and then press ENTER.   The current directory will initially be the same   directory as the currently selected BitMapZ show file.

See Also

SetUp BitMapZ

Edit Show

First gives you a browsing screen of the BitMapZ Sequence, Title and Duration.   You can edit these items on the existing entries while they are displayed in this mode.   In addition to the Tool Bar choices, you have the following button choices too:

> **OK**: Opens the SetUp BitMapZ screen for the selected entry.
> **Add**:   Adds a new entry and takes you to the SetUp BitMapZ screen.
> **Erase**:   Deletes the entry presently chosen.   You will be asked for verification.
> **Cancel**: Quits this option.

See Also
SetUp BitMapZ

Display Show

First gives you the option of running the show continuously.   If you select Yes the show will continue to run until you hit the [ESC] key, otherwise the show will run once and return to the menu.

Once the show is started the [ESC] key can be used to exit the show, any other key will cause the program to change to the next BMP, regardless of duration.

See Also

SetUp BitMapZ

SetUp BitMapZ

This option allows you to edit the variables about the selected slide.   You can enter/change the:

Title: Whatever you choose to call the BMP.

BackGround Colour: The colour to display behind the BMP.

Duration: How long (in seconds) you want the BMP to be displayed.

Sequence: The number of the slide, in the Show you are working on.

Select BitMap: This option brings up a File dialog box for you to select the BMP.   The BMP can be up to size of your screen, the program will inform you if the selected BMP is too large.

In addition, you have the following buttons:

OK: Save the changes and exit back to the Edit Show screen.

Preview: Shows the entry on the screen, just hit any key to terminate the preview.

Cancel: Aborts changes and quits this option.

When adding you also have a button labeled "Another"   this saves the present entry and adds another one (all of the information is carried over and the sequence is increased by one, automatically.)

Edit Show

Utilities Menu

Crunch
Colours
WallPaper
Default BMP Path

WallPaper

The program comes with a bitmap file named BITMAPZ.BMP.   This image is displayed on the main window of the program.   You can replace this with an image of your choosing by using this option.

The WallPaper Selection file dialog box will appear after selecting this option.

If the file   is on a different drive, select the drive you want from the Drives box.

In the Directories box, double-click the directory you want.

Or press the UP ARROW or DOWN ARROW   key to select the directory, and then press ENTER. The current directory will initially be the same   directory as the currently selected BitMapZ show file.

In the File Name box, double-click the name of the BMP you want to use.

Or select the file and choose OK.

If you do not desire any artwork,   simply enter NONE for the filename on this option.

Warning: The larger the bitmap file, the longer it will take to load and display!

Notes: If you do not use the ToolBar, your bitmap can be as large as your screen, but you will want one smaller so that it is not cut off.

Crunch

This option compresses the blank spaces out of the show file, re sequences the show file for optimal speed and rewrites all the file.   This can take awhile if your file is especially big.

At the same time this is taking place the program will renumber your priorities to replace any missing numbers.

Colours

This option will let you change the colours used for text and inputs in primary, secondary and tertiary windows within BitMapZ.   You can also alter the colours for the BackGround and Show Edit Browse boxes.   Simply enter one of the 256 choices shown for each prompt.

Primary Window: The main screen of the program.

Secondary Window: Windows that appear as the result of choosing one of the menu items.

Tertiary Window: A Window that appears as a result of selecting an option from another Window.

Background Box: The colours used for the Background drop down menu.

Browse Box: The colours used for the Edit Show menu option.

Tool Bars?:   Lets you turn on/off the tool bars.

Warranty

Unicorn Software Limited makes no warranty of any kind, express or implied, including without limitation, any warranties of merchantability and/or fitness for a particular purpose. Unicorn Software Limited shall not be liable for any damages, whether direct, indirect, special or   consequential arising from a failure of this program to operate in the manner desired by the   user. LICENSE AGREEMENT

BitMapZ   is a commercial program being distributed through a method known as "Shareware" and is provided at no charge to the user for evaluation.   Feel free to share it with your friends, but BitMapZ must be distributed in unmodified, complete form, including this Reference Guide and License Agreement. Also, BitMapZ may not be distributed in conjunction with any other product.   The essence of "user-supported" software is to provide personal computer users with quality software without high prices, and yet to provide incentive for programmers to   continue   to   develop   new products.   If you   find   this   program useful and find that you are using BitMapZ and continue to use BitMapZ after a reasonable trial period,   you must   make   a   registration   payment of $29.95 to Unicorn Software Limited, P.O.   Box 117 Knob Noster, MO 65336-0117.   Or you can use your MC, Visa, AmEx, or Discover by calling the PsL at 800-242-4775 or 713-524-6394 or by FAX to 713-524-6398.   These numbers are for ordering only!   See REGISTER.WRI for other   ordering   options.   For   information about   dealer   pricing,   site licensing, shipping of product, returns, latest version number or technical support call 816-429-3558 or write to Unicorn Software Ltd. directly.

The $14.95 registration fee will license one copy for use on any one computer at any one time. You must treat this software just like   a   book.   An   example   is   that this software may be used by any number of people and may be freely moved from one computer location to another, so long as there is no possibility of it being used at one location while it's being used at another. Just as a book cannot be read by two different persons at the same time.

The BitMapZ slide show program is protected by United States Copyright Law and   International Treaty   provisions.   All   rights   are   reserved. Non-registered   users of BitMapZ are licensed only to use the program on a trial basis for the sole purpose of determining whether   or   not   it   meets their requirements. All other use requires registration.

Commercial   users   of   BitMapZ   must   register and pay for their copies of BitMapZ within 30 days of   first   use   or   their   license   is   withdrawn. Site-License   arrangements   may   be   made   by contacting   Unicorn Software Limited.

You are encouraged to pass a copy of BitMapZ along   to   your   friends   for evaluation.   Please encourage them to register their copy if they find it useful.

All   Registered   Users   receive   the   latest   version;   FREE   phone,   mail,   and   BBS   technical support; discounts & free offers from several   computer   services   mail   notification   of   all   major upgrades   &   new   programs;   a FREE disk filled with bitmap images to use as WallPaper, FREE Upgrades for the price of postage and handling; and another one of Unicorn's Shareware programs to try.

ASP Ombudsman Statement

Unicorn Software Limited is a member of the Association of Shareware Professionals (ASP). ASP wants to make sure that the Shareware principle works for you. If you are unable to resolve a Shareware-related problem with an ASP member by contacting the member directly, ASP may be able to help. The ASP Ombudsman can help you resolve a dispute or problem with an ASP member, but does not provide technical support for members' products. Please write to the ASP Ombudsman at 545 Grover Road, Muskegon, MI 49442-9427 or send a CompuServe message via CompuServe Mail to ASP Ombudsman 70007,3536.
