Ergo*Logic* Flush 95

Welcome to Marc Zimmermann's newest (and presumably sort of idiotic) addition to the range of useless utilitiy programs for Microsoft® Windows® 95 - Flush 95!

The purpose of this program is to remove all entries from the Documents folder on Windows 95's **Start** menu. This result is achieved by simply deleting all *.LNK files from the \WINDOWS\RECENT directory. Easy, isn't it?

Installation is quite simple. Copy the program file (FLUSH.EXE) anywhere you prefer and create a shortcut to it. If you want to suppress the sound effect, put /QUIET on the shortcut's **Target** line after the program name.

What's the price for this little beauty? C'mon, this piece of code is far too simple to pay for it. Use and share it freely!

Disclaimer (sorry, this legal stuff is unavoidable): I hereby disclaim all warranties relating to this software, whether express or implied, including without limitation any implied warranties of merchantability or fitness for a particular purpose. I will not be liable for any special, incidental, consequential, indirect or similar damages due to loss of data or any other reason, even if I have been advised of the possibility of such damages. In no event shall my liability for any damages ever exceed the price paid for the license to use the software, regardless of the form of the claim. The person using the software bears all risk as to the quality and performance of the software.

Enjoy!
