## 1.2 Introduction

### Introduction

Welcome to AMIL (Amiga Main Internet List).

This is (or at least tries to be) a full (???) listing of every (???) person - company/group - BBS - mailing list - newsgroup - zine related to the Amiga. Extra goodies include all Aminet sites and a lot of WWW Resources.

Let's try to make it clearer. This guide contains (1) the following :

#### 1. People/Persons.

That includes :

- Programmers/Coders
- Music/Gfx Artists
- Managers
- Producers
- Hardware/Software Designers

Additional information includes :

- Company working for,
- E-Mail address
- WWW address
- IRC Nickname/Channel
- Fidonet address
- Notes about the person
- "Projects" that the person has "created".

#### 2. Companies/Groups.

That includes :

- Hardware/Software Distribution Companies
- Hardware/Software Development Companies
- Software Houses
- Hardware/Software Vendors
- Hardware/Software Dealers
- Programming Groups/Teams
- Demo Groups/Teams
- Gfx/Sfx Studios

Additional information includes :

- E-Mail address,
- FTP address
- WWW address
- Fidonet address
- Activities
- Products that are developed/distributed.

#### 3. BBS.

That includes all kinds of BBS dealing with Amiga.

Additional information includes :

---

- Sysop Name
- E-Mail address
- FTP address
- Telnet address
- Fidonet address
- Amiganet address
- Phone Lines (+modem type).

#### 4. Mailing Lists.

That includes all kinds of Mailing Lists/List Servers dealing with Amiga.

Additional information includes :

- E-Mail address
- (Un)Subscribe address
- (Un)Subscribe commands
- Mail address
- FTP address
- Notes about the mailing list.

#### 5. Usenet Newsgroups.

#### 6. Zines.

That includes Zines in electronic and "printed" form.

Additional information includes :

- E-Mail address
- WWW address
- Editor name/e-mail

#### 7. Aminet Sites.

That includes all sites that mirror the whole (or part of) Aminet.

Additional information includes :

- Country
- Site name
- IP address
- Aminet path
- Number of files mirrored

#### 8. WWW Resources.

(1) : Numbers 1, 2, 3, 4, 6 are under improvement. (See Comments).

Numbers 5, 8 are still under development.

Number 7 is updated through pub/aminet/README.

I already have (stored in a database) a list of over

10 newsgroups, 15 WWW resources and a lot of BBS

(still waiting Danny),

but that has to be first converted in a

"readable" format. Ideas are welcome.

NOTE1 : I will try to upload a new version to Aminet every month or so,  
as long as this list is maintained by me.

NOTE2 : Watch the next version (Nov '95) because it's gonna be very BIG.

ATTENTION

---

-----  
THIS VERSION IS HIGHLY EXPERIMENTAL AND INCOMPLETE

Tassos Hadjithomaoglou

~~~~~

## 1.3 Purpose

### Purpose

General purpose of this list is to provide the Amiga Community with information about every possible "PROJECT" (2) associated with this wonderful computer.

That way, you (Amiga users) can "contact" the "PROJECT" immediately and :

- request misc information
- send thanks/(b|f)lames (i hope not the second)
- send corrections/additions/suggestions/improvements/comments
- get informed about various products
- exchange opinions

and many more i can't even think of.

(2) : The word "PROJECT" used here, refers to numbers 1 - 7 mentioned in introduction, and DOESN'T try to "lower" anyone of you.  
Therefore it has nothing to do with the field "Projects :" used in the actual list.

- HELP THE AMIGA COMMUNITY GROW -

~~~~~

## 1.4 Copyright-Distribution-Disclaimer

### Copyright

This document is Copyright © 1995 Tassos Hadjithomaoglou.  
All rights reserved.  
Some of the mentioned names or products may be copyrighted by companies or trademarks of companies.

### Distribution

---

This document may be freely distributed, provided that it is distributed in its original unmodified form. If you modify this document, you are not allowed to distribute it. If you really want to modify this document please contact the author first.

#### Disclaimer

The author of this document :

- is not responsible for any damage caused by the use of this document. It's all user's responsibility.
- is not responsible and makes no claims about the validity and correctness of information included in this document.
- does not necessarily endorse any of the information included in this document.

This document is provided for informational purposes only.

~~~~~

## 1.5 Comments

#### Comments

This list cannot be expanded without the help of users/readers like you. So if you have any additional information/corrections/suggestions, PLEASE send them to me.  
All contributors will be credited with their email addresses unless denied by them.

Information most needed is about :

- Country/State/City names of BBS in the America/UNKNOWN Section
- WWW (URL) addresses of Persons & Companies
- Companies/Groups
- BBS (E-Mail, Telnet addresses)
- Zines
- widely known programmers/artists

Search Function : YOU ASKED FOR IT. Here it is.

Also, a lot of people suggested the conversion of this guide to a different format. Something like a database with search, link, query, etc. options. I'm still trying to figure out the right way. Anyway, links will probably be included in the next version. Please send me your ideas.

NOTE1 : All submitted information can not be checked (fully) for it's validity and correctness.

NOTE2 : Contributors are requested (well, i can't force them) to submit information using the formats used in this document. That way

---

i can more easily/frequently update this list.

NOTE3 : Any grammatical/spelling corrections in this list are also  
welcome (yu si, mai speling isent veri goud). :-))))))

~~~~~

## 1.6 Credits

### Credits

AMIL.guide : main idea, written/designed by Tassos Hadjithomaoglou  
AMIL\_Search.rexx : written by Tassos Hadjithomaoglou

A lot of WWW info taken from The Amiga Web Directory  
(Kevin, I hope you don't mind...:-))

A lot of BBS info taken from Amiga Report  
(Jason, I hope you don't mind too...:-))

Aminet Sites info taken from pub/aminet/README  
(Urban, I hope you don't mind toooo...:-))

## 1.8 History

History

R123 (10-May-1995) : Written just for personal use.  
List contains :  
123 Persons  
-----  
Total : 123 Records

R214 (28-May-1995) : Uploaded to Aminet.  
List contains :  
214 Persons

-----  
Total : 214 Records

R302 (13-Jun-1995) : Various Corrections/Improvements/Additions.  
List contains :  
270 Persons  
32 Companies  
-----  
Total : 302 Records

R363 (28-Jun-1995) : Uploaded to Aminet.  
Various Corrections/Improvements/Additions.  
List contains :  
295 Persons  
62 Companies  
6 Zines  
-----  
Total : 363 Records

R477 (05-Sep-1995) : Uploaded to Aminet.  
Various Corrections/Improvements/Additions.  
List contains :  
335 Persons  
69 Companies  
65 BBS  
8 Zines  
-----  
Total : 477 Records

R577 (15-Oct-1995) : Uploaded to Aminet.  
Various Corrections/Improvements/Additions.  
Search function (AMIL\_Search.rexx) included.  
List contains :  
556 Persons  
94 Companies  
145 BBS  
16 Mailing Lists  
16 Zines  
23 Aminet Sites  
-----  
Total : 834 Records

## 1.34 Companies

Companies

ACID software  
E-Mail : acid@iconz.co.nz  
Activities : Software Development & Distribution

Products : BlitzBasic, Blitz3D, Gloom, Blitz-Jaguar

#### ALLDATA

E-Mail : ronald@noblehouse.xs4all.nl (Ronald van Eijck)  
Activities : Software Development  
Hardware/Software Distribution  
Products : ALLert information system,  
Custom vidiwall control software,  
Custom gameshow control software,  
(f.i. 'Postcodebingo', 'Quinto', 'Love is..')

#### Almathera Systems Limited

E-Mail : almathera@cix.compulink.co.uk  
jralph@cix.compulink.co.uk (Jolyon Ralph)  
Activities : Software Development & Distribution  
Products : Photogenics, Video Creator CD

#### Amiga Library Services (North American Distribution)

E-Mail : info@amigalib.com  
Activities : Software Distribution  
Products : Light Works CD, Fresh Fonts CD-ROM

#### AmigaOS Replacement Project

E-Mail : amigosinfo@aobh.xs4all.nl  
WWW : <http://www.telesys-innov.fr/AmigOS/AOS.html>  
Activities : Development of a new AmigaOS  
Products : AmigaOS Replacement

#### Amiga Technologies (AT)

E-Mail : peterk@mail.Amiga.de (Dr. P. Kittel)  
WWW : <http://www.Amiga.de>  
Activities : Rebirth of Amiga  
Products : Amiga Computers, a new Amiga (?)

#### Amiga Video Solutions, Inc.

WWW : <http://www.winternet.com/~avs/>  
Activities : Video Hardware/Software Development  
Products : ?

#### AmiTCP/IP Programming Project Group

E-Mail : amitcp-group@hut.fi  
WWW : <http://www.phone.net/ATCPFAQ/amitcp.html> (FAQ)  
Activities : Development of Amiga TCP/IP  
Products : AmiTCP

#### Ami-Trix Development

E-Mail : decurrie@freenet.edmonton.ab.ca (Dale Currie)  
WWW : <http://nyquist.ee.ualberta.ca/~ewaniu/amitrix.html>  
Activities : Hardware/Software Development  
Products : CD-RAM, SCSI-TV, SCSI-TV570

#### Asimware Innovations Inc.

E-Mail : info@asimware.com  
reeves@cujo.icom.ca (Paul Reeve)  
FTP : asimware.com  
Activities : Software Development & Distribution  
Products : ASIM CDFS (Amiga CD filesystem),

---

Master ISO (CD-ROM Writing Software)  
PhotoCD Manager CD32  
Texture Heaven CD 1 & 2

#### AugmenTek

E-Mail : augmentek@acm.org  
WWW : <http://www.halcyon.com/sbr/>  
Activities : Software/Hardware Development & Distribution  
Products : MultiVol, Rexinda, RextVar, TorqueWare

#### Barnie Productions

E-Mail : barnie@xs4all.nl  
Activities : Software Development & Distribution  
Products : IPR (Image Processing Revelations)

#### Better Concepts

E-Mail : betterc@j51.com  
WWW : <http://commons.j51.com/bci>  
Activities : Software & Hardware Vendor

#### Bevelstone Production

WWW : <http://www.login.dknet.dk/~bvlstone/>  
Activities : Game Development  
Products : Fields of Battle

#### Black Belt Systems, Inc.

E-Mail : info@blackbelt.com (Additional Information)  
support@blackbelt.com (Technical Support)  
market@blackbelt.com (Marketing)  
sales@blackbelt.com (Sales)  
FTP : [ftp.blackbelt.com/corporate/blackbelt/demos](ftp://ftp.blackbelt.com/corporate/blackbelt/demos) (Software Demos)  
WWW : [http://www.blackbelt.com/blackbelt/bx\\_top.html](http://www.blackbelt.com/blackbelt/bx_top.html)  
Activities : Software Development & Distribution  
Products : Imagemaster R/t, Board Master

#### Blittersoft (England)

E-Mail : plesurf@cix.compulink.co.uk  
100523.2224@compuserve.com  
Activities : Software Development  
Software Distribution for Utilities Unlimited  
Hardware Distribution for Village Tronic  
Products : Liana

#### Bug Free Development

E-Mail : 71171.3015@compuserve.com  
Activities : Software Development  
Products : CheckItOut, Stocks

#### C-Born Software Systems (Australia)

E-Mail : dave@cborn.pth.alcoa.com (David Varley)  
Activities : Software Development  
Products : AmigaFax

#### Cloanto (Italy)

E-Mail : 100145.15@compuserve.com  
Activities : Software Development  
Products : Personal Paint

---

## ComputerSmith

WWW : gopher://gopher.soonet.ca/11%5cCOMPUTERSMITH  
Activities : Hardware/Software Distribution  
Products : ?

## Consultron

E-Mail : cstron@m-net.arbornet.org  
consultron@consultron.plymouth.mi.us  
Activities : Software Development & Distribution  
Products : CrossDOS, CrossMAC

## Custom Services

E-Mail : Tony-Preston@cup.portal.com  
Activities : Software Development & Distribution  
Products : STU (The Amiga System Test Utility)

## Cygnus Software

E-Mail : CygnusSoft@cup.portal.com  
Activities : Software Development

## 1.83 Explanations

## Explanations

### People/Persons

- The list is sorted alphabetically firstly by Country code (ISO 3166) and secondly by Person's lastname.  
That ofcourse doesn't mean that a person with an address like xxx.org or xxx.com or xxx.net lives to United States.  
Any corrections refering to this one are welcome.
- In case you just want to refer to a specific project (which is followed by an address enclosed in <>) then you should use that address instead of the general one.
- Everything that comes after a person's name and is enclosed in () usually refers to person's code/nick-name.

### Companies/Groups

- The list is sorted alphabetically by Company name.
- "Products :" refers to developed & distributed products.

### BBS

- The list is sorted alphabetically firstly by Country/State name and secondly by BBS name. Any help in the UNKNOWN section is welcome.

### Mailing Lists

- The list is sorted alphabetically by Mailing List name.
- The meaning of fields is :

E-Mail : Use this address if you want info about the ML or if you have problems with the ML.

Subscribe : Send email to this address in order to (un)subscribe to/from the ML.

SubscribeCm : Send these commands to the above address in order to (un)subscribe. If this field is empty, then try to send a HELP command.

NOTE :

EmailAddress = your email address

(ex.: chatasos@teia.ariadne-t.gr)

FirstName = your first name

(ex.: Tassos)

LastName = your last name

(ex.: Hadjithomaoglou)

[] = optional field

Mail : Use this address if you want to send something to the ML, after you have subscribed.

If this field is empty, then most probably you can use the Subscribe address or the address returned to you by the ML after the subscription.

FTP : Use this address for FTP.

Notes : Info about what the ML deals with.

#### Zines

- The list is sorted alphabetically by Zine name.

~~~~~

## 1.84 AMIL\_Search

### AMIL\_Search

This is just an experimental search function. It's written in ARexx and it's quite slow (try reading the whole file line by line, while searching each line at the same time).

Please pay attention to these :

- o An AMIL: assign must be made, so AMIL\_Search.rexx can load AMIL:AMIL.guide and search it.

Assign AMIL: <insert directory of AMIL.guide here>

ex. : Assign AMIL: DH2:Docs/AMIL

- o Either place AMIL\_Search.rexx into the Rexx: directory or better leave it into the AMIL: directory.
- o AMIL\_Search.rexx creates a file (called AMIL\_Search.guide) into directory T:, so having T: assigned as RAM:T is a good idea.
- o AMIL\_Search.rexx can be run from:

- CLI

The word to search for can be supplied either as an argument  
 ex.: AMIL\_Search.rexx thomas  
 will find and display all lines containing "thomas"

or leave the program itself ask for one  
 ex.: AMIL\_Search.rexx  
 will display "Please input word to search for :"  
 and you can type in the word you want to search for.

- WorkBench

A CON: window will be opened and the message  
 "Please input word to search for :" will appear.

Now just type in the word you want to search for.

- o The file REXxMast (SYS:System/REXXMast) is executed before AMIL\_Search.rexx, so you don't have to run it manually.
- o The following files must exist and be in your path :
  - rx (found in SYS:rexxc)
  - Run (found in C:, resident in AmigaOS >= 2.0)
- o In order to view AMIL\_Search.guide you can use :
  - SYS:Utilities/MultiView (default)
  - SYS:Utilities/AmigaGuide
  - a AmigaGuide database viewer of your choice. All you have to do is change the line :  
Viewer = 'SYS:Utilities/MultiView'  
to the right one for your viewer. Please use the full path otherwise AMIL\_Search.rexx will not be able to find it.
- o The search being done is case insensitive, so "thomas" is the same as "Thomas" which is the same as "ThOmAs".
- o The file which is created (T:AMIL\_Search.guide) is a normal AmigaGuide database containing links to the lines of the nodes where the word was found and the actual lines themselves. So clicking on a button/link will transfer you to the appropriate node and line of AMIL.guide. Then you can press the "Retrace" button and move back to AMIL\_Search.guide, press another button/link and so on.
- o The Run command is used with Multiview (or AmigaGuide) so you can continue your work while the AMIL\_Search.guide is being displayed. The drawback is that when you finish, you'll have to delete T:AMIL\_Search.guide manually.

NOTE : I'm still waiting for an AmigaGuide (+.library) version with a search function included (Anyone/Escom AG/AT hearing me?).

NOTE : If you need more nets (not just only Fidonet) just mail me.

~~~~~

## 1.87 Fido-InterNet gateways

Fido-InterNet gateways

USA and other

Fidonet : zone:net/node.point (firstname lastname)  
Internet : firstname.lastname@pXX.fXXX.nXXXX.zX.fidonet.org

ex.

Fidonet : 2:292/603.10 (Nico Francois)  
Internet : Nico.Francois@p10.f603.n292.z2.fidonet.org

Australia

Fidonet : zone:net/node.point (firstname lastname)  
Internet : firstname.lastname@pXX.fXXX.nXXXX.zX.fido.zeta.org.au

ex.

Fidonet : 3:622/423.2 (steve banham)  
Internet : steve.banham@p2.f423.n622.z3.fido.zeta.org.au

Germany

Fidonet : zone:net/node.point (firstname\_lastname)  
Internet : firstname\_lastname@pXX.fXXX.nXXXX.zX.fido.sub.org

ex.

Fidonet : 2:2457/435.10 (Andreas\_Kleinert)  
Internet : Andreas\_Kleinert@p10.f435.n2457.z2.fido.sub.org

Where : p=point (optional)  
f=node  
n=net  
z=zone  
X=number 0-9

NOTE1 : When you come into a name containing 3 words, most of the times that means that the first word is the firstname and the third (last) word is the lastname.
