```

1.13 Ascci Format

```
Text Ascii Format

The  Text Ascii Format used by the Editor is made up of the following
text:

1) Very First Line,Very First Word Must be:  "InterPlay"
   Everything else on first line is skiped

2) Each Cd's 1st line Must Starts with:

 "Index No:$"  Followed  by  8  Digit  Hex  Number

           (Ie.   "Index No:$12345678" )

   Everything else on line is skiped   (Including CD No: )

 (The 8 digit hex number is the Index number
             and is used by Interplay to find correct cd)

3) 2nd line is the Cd Title Name  Which starts after: "--->"
                                    (or the 5th character onwards)

4) 3rn line and next lines are the cd track name After: "nn -"
                                    (or the 5th character onwards)

5) End of Each Cd is a blank line   (No spaces just a Return)

Here is an Example Saved by the Editor:

Note.   The  numbers of cd's, the date, and the CD No:  are output by
        the editors  "Save  Text  Ascii Format" for your use only and
        are  not  needed  for  the file to be loaded correctly by the
        editor.

1.15 Interplay

```
InterPlay Cd Player V2.0/3.1
        What is this ?
        =============
This is an Audio-CD player program for the Amiga.  It was designed to
work  with the Archos Overdrive CD-Rom, that has been very popular on
the A1200 but it should work on other drives as well.

   This version hopefully works on the following setups:

  * Archos' Overdrive/Zappo CD-Rom
  * SCSI CD-Rom drives under Kickstart 3.1
  * Power CD-Rom (Using squirrel pcmcia scsi interface)
  * Commodore CD32 (with SX-1 Module present)
```

```
* SCSI CD-Roms connected to the Squirrel scsi interface.

Credits

1.17 history

```
V1.08 Nov/95
Fixxed the problem with IO-ERROR save when Interplay is loaded at same time
as the editor,    Now when you save the editor now gives a Warning if Interplay
is running the same time as the editor, and if you try to save to
the Interplay.list Interplay is currently using you will be
informed that no file save was made and you must quit Interplay
to make this save.

Changed the 'Show Cd list' Exit-button to a higher brightness orange.

V1.07 Sept/95
1st released version:
```
