Hands On Contents

OPERATING SYSTEMS

Windows 95 *258*
Tim Nott shows you how to set up and use the new multiple-user feature of Win95.

Windows *260*
For Windows to work well, DOS has to be set up correctly. Tim Nott gets down to it.

DOS *264*
Things are looking up! Simon Collin helps locate resident programs in Upper memory.

32-Bit *266*
Chris Bidmead lets you in to his library of Linux books. Plus, Caldera and Partition Magic.

APPLICATIONS

Word Processing *269*
Tim Phillips reports that loyal users of DOS word processors are getting a raw deal.

Spreadsheets *274*
Stephen Wells swings into that old California golf thing as he calculates his handicap.

Databases *278*
Further examination of Codd's rules, and the National Lottery, with Mark Whitehorn.

Graphics & DTP *282*
Old cynic that he is, Gordon Laing ignored the Internet. Then curiosity got the better of him, and a whole new world of DTP opened up.

Multimedia *286*
Panicos Georghiades and Gabriel Jacobs can stop playing the guessing game — the spec for MPC Level 3 has been released.

Sound *290*
Want a hit? Then hit those skins! There are ways of making a drum track sound live, as Steven Helstrip explains.

PROGRAMMING

Visual Programming *294*
Tim Anderson shows you how to create database tables entirely in code, using Delphi.

Low Level *299*
Joining the dots couldn't be easier — you just need cubic splines to create smooth curves,

Hands On is the place where readers can contribute to *PCW*, and as always we'll pay for anything we use. Macros, sections of code and hints and tips will be rewarded with a £20 book or record token (please say which you'd prefer) and we'll pay hard cash for longer, more involved pieces. Please include relevant screenshots in GIF format.

All submissions should be emailed to the author of the appropriate section or snailmailed to Hands On, *Personal Computer World* Editorial, VNU House, 32-34 Broadwick Street, London W1A 2HG. Questions and short hints and tips can be faxed on 0171 316 9313.

We're constantly working to improve the contents of Hands On. If you have any suggestions, send them to the Editor at the address above, or email them to: editor@pcw.ccmail.compuserve.com

Numbers Count *305*
The Squambling Function raises some interesting problems. Mike Mudge is your guide.

AND THE REST...

Networks *306*
An Appletalk connection annoys Stephen Rodda. Going Dutch calms him down.

Comms *310*
On-line conferencing services are reviving the art of conversation, says Stephen Cobb.

Macintosh *316*
A new range of Apples has caught Chris Cain's eye, plus there's news from MacExpo.

Computer Answers *319*
Frank Leonhardt presents his regular forum for your problems, hints & tips and solutions.

Beginners *321*
Eleanor Turton-Hill guides you through the minefield of PC jargon and confusion.
